

TITLE I—ENERGY EFFICIENCY

Subtitle A—Federal Programs

- Sec. 101. Energy and water saving measures in congressional buildings.
- Sec. 102. Energy management requirements.
- Sec. 103. Energy use measurement and accountability.
- Sec. 104. Procurement of energy efficient products.
- Sec. 105. Energy savings performance contracts.
- Sec. 106. Voluntary commitments to reduce industrial energy intensity.
- Sec. 107. Advanced Building Efficiency Testbed.
- Sec. 108. Increased use of recovered mineral component in federally funded projects involving procurement of cement or concrete.
- Sec. 109. Federal building performance standards.
- Sec. 110. Daylight savings.
- Sec. 111. Enhancing energy efficiency in management of Federal lands.

Subtitle B—Energy Assistance and State Programs

- Sec. 121. Low income home energy assistance program.
- Sec. 122. Weatherization assistance.
- Sec. 123. State energy programs.
- Sec. 124. Energy efficient appliance rebate programs.
- Sec. 125. Energy efficient public buildings.
- Sec. 126. Low income community energy efficiency pilot program.
- Sec. 127. State Technologies Advancement Collaborative.
- Sec. 128. State building energy efficiency codes incentives.

Subtitle C—Energy Efficient Products

- Sec. 131. Energy Star program.
- Sec. 132. HVAC maintenance consumer education program.
- Sec. 133. Public energy education program.
- Sec. 134. Energy Efficiency public information initiative.
- Sec. 135. Energy conservation standards for additional products.
- Sec. 136. Energy conservation standards for commercial equipment.
- Sec. 137. Energy labeling.
- Sec. 138. Intermittent escalators.
- Sec. 139. Energy efficient electric and natural gas utilities study.
- Sec. 140. Energy efficiency pilot program.
- Sec. 141. Motor vehicle tires supporting maximum fuel efficiency.

Subtitle D—Public Housing

- Sec. 151. Public housing Capital Fund.
- Sec. 152. Energy-efficient appliances.
- Sec. 153. Energy efficiency standards.
- Sec. 154. Energy strategy for HUD.

1 **TITLE I—ENERGY EFFICIENCY**

2 **Subtitle A—Federal Programs**

3 **SEC. 101. ENERGY AND WATER SAVING MEASURES IN CON-**
4 **GRESSIONAL BUILDINGS.**

5 (a) IN GENERAL.—Part 3 of title V of the National
6 Energy Conservation Policy Act (42 U.S.C. 8251 et seq.)
7 is amended by adding at the end the following:

8 **“SEC. 552. ENERGY AND WATER SAVINGS MEASURES IN**
9 **CONGRESSIONAL BUILDINGS.**

10 “(a) IN GENERAL.—The Architect of the Capitol—

11 “(1) shall develop, update, and implement a
12 cost-effective energy conservation and management
13 plan (referred to in this section as the ‘plan’) for all
14 facilities administered by Congress (referred to in
15 this section as ‘congressional buildings’) to meet the
16 energy performance requirements for Federal build-
17 ings established under section 543(a)(1); and

18 “(2) shall submit the plan to Congress, not
19 later than 180 days after the date of enactment of
20 this section.

21 “(b) PLAN REQUIREMENTS.—The plan shall in-
22 clude—

23 “(1) a description of the life cycle cost analysis
24 used to determine the cost-effectiveness of proposed
25 energy efficiency projects;

1 “(2) a schedule of energy surveys to ensure
2 complete surveys of all congressional buildings every
3 5 years to determine the cost and payback period of
4 energy and water conservation measures;

5 “(3) a strategy for installation of life cycle cost-
6 effective energy and water conservation measures;

7 “(4) the results of a study of the costs and ben-
8 efits of installation of submetering in congressional
9 buildings; and

10 “(5) information packages and ‘how-to’ guides
11 for each Member and employing authority of Con-
12 gress that detail simple, cost-effective methods to
13 save energy and taxpayer dollars in the workplace.

14 “(c) ANNUAL REPORT.—The Architect of the Capitol
15 shall submit to Congress annually a report on congres-
16 sional energy management and conservation programs re-
17 quired under this section that describes in detail—

18 “(1) energy expenditures and savings estimates
19 for each facility;

20 “(2) energy management and conservation
21 projects; and

22 “(3) future priorities to ensure compliance with
23 this section.”.

24 (b) TABLE OF CONTENTS AMENDMENT.—The table
25 of contents of the National Energy Conservation Policy

1 Act is amended by adding at the end of the items relating
 2 to part 3 of title V the following new item:

“Sec. 552. Energy and water savings measures in congressional buildings”.

3 (c) REPEAL.—Section 310 of the Legislative Branch
 4 Appropriations Act, 1999 (2 U.S.C. 1815), is repealed.

5 **SEC. 102. ENERGY MANAGEMENT REQUIREMENTS.**

6 (a) ENERGY REDUCTION GOALS.—

7 (1) AMENDMENT.—Section 543(a)(1) of the
 8 National Energy Conservation Policy Act (42 U.S.C.
 9 8253(a)(1)) is amended by striking “its Federal
 10 buildings so that” and all that follows through the
 11 end and inserting “the Federal buildings of the
 12 agency (including each industrial or laboratory facil-
 13 ity) so that the energy consumption per gross square
 14 foot of the Federal buildings of the agency in fiscal
 15 years 2006 through 2015 is reduced, as compared
 16 with the energy consumption per gross square foot
 17 of the Federal buildings of the agency in fiscal year
 18 2003, by the percentage specified in the following
 19 table:

“Fiscal Year	Percentage reduction
2006	2..
2007	4..
2008	6..
2009	8..
2010	10..
2011	12..
2012	14..
2013	16..
2014	18..
2015	20.”.”.

1 (2) REPORTING BASELINE.—The energy reduc-
2 tion goals and baseline established in paragraph (1)
3 of section 543(a) of the National Energy Conserva-
4 tion Policy Act (42 U.S.C. 8253(a)(1)), as amended
5 by this subsection, supersede all previous goals and
6 baselines under such paragraph, and related report-
7 ing requirements.

8 (b) REVIEW AND REVISION OF ENERGY PERFORM-
9 ANCE REQUIREMENT.—Section 543(a) of the National
10 Energy Conservation Policy Act (42 U.S.C. 8253(a)) is
11 further amended by adding at the end the following:

12 “(3) Not later than December 31, 2014, the Sec-
13 retary shall review the results of the implementation of
14 the energy performance requirement established under
15 paragraph (1) and submit to Congress recommendations
16 concerning energy performance requirements for fiscal
17 years 2016 through 2025.”.

18 (c) EXCLUSIONS.—Section 543(c)(1) of the National
19 Energy Conservation Policy Act (42 U.S.C. 8253(c)(1))
20 is amended by striking “An agency may exclude” and all
21 that follows through the end and inserting “(A) An agency
22 may exclude, from the energy performance requirement
23 for a fiscal year established under subsection (a) and the
24 energy management requirement established under sub-

1 section (b), any Federal building or collection of Federal
2 buildings, if the head of the agency finds that—

3 “(i) compliance with those requirements would
4 be impracticable;

5 “(ii) the agency has completed and submitted
6 all federally required energy management reports;

7 “(iii) the agency has achieved compliance with
8 the energy efficiency requirements of this Act, the
9 Energy Policy Act of 1992, Executive orders, and
10 other Federal law; and

11 “(iv) the agency has implemented all prac-
12 ticable, life cycle cost-effective projects with respect
13 to the Federal building or collection of Federal
14 buildings to be excluded.

15 “(B) A finding of impracticability under subpara-
16 graph (A)(i) shall be based on—

17 “(i) the energy intensiveness of activities car-
18 ried out in the Federal building or collection of Fed-
19 eral buildings; or

20 “(ii) the fact that the Federal building or col-
21 lection of Federal buildings is used in the perform-
22 ance of a national security function.”.

23 (d) **REVIEW BY SECRETARY.**—Section 543(c)(2) of
24 the National Energy Conservation Policy Act (42 U.S.C.
25 8253(c)(2)) is amended—

1 (1) by striking “impracticability standards” and
2 inserting “standards for exclusion”;

3 (2) by striking “a finding of impracticability”
4 and inserting “the exclusion”; and

5 (3) by striking “energy consumption require-
6 ments” and inserting “requirements of subsections
7 (a) and (b)(1)”.

8 (e) **CRITERIA.**—Section 543(e) of the National En-
9 ergy Conservation Policy Act (42 U.S.C. 8253(e)) is fur-
10 ther amended by adding at the end the following:

11 “(3) Not later than 180 days after the date of enact-
12 ment of this paragraph, the Secretary shall issue guide-
13 lines that establish criteria for exclusions under paragraph
14 (1).”.

15 (f) **RETENTION OF ENERGY AND WATER SAVINGS.**—
16 Section 546 of the National Energy Conservation Policy
17 Act (42 U.S.C. 8256) is amended by adding at the end
18 the following new subsection:

19 “(e) **RETENTION OF ENERGY AND WATER SAV-**
20 **INGS.**—An agency may retain any funds appropriated to
21 that agency for energy expenditures, water expenditures,
22 or wastewater treatment expenditures, at buildings subject
23 to the requirements of section 543(a) and (b), that are
24 not made because of energy savings or water savings. Ex-
25 cept as otherwise provided by law, such funds may be used

1 only for energy efficiency, water conservation, or uncon-
2 ventional and renewable energy resources projects.”.

3 (g) REPORTS.—Section 548(b) of the National En-
4 ergy Conservation Policy Act (42 U.S.C. 8258(b)) is
5 amended—

6 (1) in the subsection heading, by inserting
7 “THE PRESIDENT AND” before “CONGRESS”; and

8 (2) by inserting “President and” before “Con-
9 gress”.

10 (h) CONFORMING AMENDMENT.—Section 550(d) of
11 the National Energy Conservation Policy Act (42 U.S.C.
12 8258b(d)) is amended in the second sentence by striking
13 “the 20 percent reduction goal established under section
14 543(a) of the National Energy Conservation Policy Act
15 (42 U.S.C. 8253(a)).” and inserting “each of the energy
16 reduction goals established under section 543(a).”.

17 **SEC. 103. ENERGY USE MEASUREMENT AND ACCOUNT-**
18 **ABILITY.**

19 Section 543 of the National Energy Conservation
20 Policy Act (42 U.S.C. 8253) is further amended by adding
21 at the end the following:

22 “(e) METERING OF ENERGY USE.—

23 “(1) DEADLINE.—By October 1, 2012, in ac-
24 cordance with guidelines established by the Sec-
25 retary under paragraph (2), all Federal buildings

1 shall, for the purposes of efficient use of energy and
2 reduction in the cost of electricity used in such
3 buildings, be metered or submetered. Each agency
4 shall use, to the maximum extent practicable, ad-
5 vanced meters or advanced metering devices that
6 provide data at least daily and that measure at least
7 hourly consumption of electricity in the Federal
8 buildings of the agency. Such data shall be incor-
9 porated into existing Federal energy tracking sys-
10 tems and made available to Federal facility energy
11 managers.

12 “(2) GUIDELINES.—

13 “(A) IN GENERAL.—Not later than 180
14 days after the date of enactment of this sub-
15 section, the Secretary, in consultation with the
16 Department of Defense, the General Services
17 Administration, representatives from the meter-
18 ing industry, utility industry, energy services in-
19 dustry, energy efficiency industry, energy effi-
20 ciency advocacy organizations, national labora-
21 tories, universities, and Federal facility energy
22 managers, shall establish guidelines for agencies
23 to carry out paragraph (1).

24 “(B) REQUIREMENTS FOR GUIDELINES.—

25 The guidelines shall—

1 “(i) take into consideration—

2 “(I) the cost of metering and
3 submetering and the reduced cost of
4 operation and maintenance expected
5 to result from metering and sub-
6 metering;

7 “(II) the extent to which meter-
8 ing and submetering are expected to
9 result in increased potential for en-
10 ergy management, increased potential
11 for energy savings and energy effi-
12 ciency improvement, and cost and en-
13 ergy savings due to utility contract
14 aggregation; and

15 “(III) the measurement and
16 verification protocols of the Depart-
17 ment of Energy;

18 “(ii) include recommendations con-
19 cerning the amount of funds and the num-
20 ber of trained personnel necessary to gath-
21 er and use the metering information to
22 track and reduce energy use;

23 “(iii) establish priorities for types and
24 locations of buildings to be metered and
25 submetered based on cost-effectiveness and

1 a schedule of 1 or more dates, not later
2 than 1 year after the date of issuance of
3 the guidelines, on which the requirements
4 specified in paragraph (1) shall take effect;
5 and

6 “(iv) establish exclusions from the re-
7 quirements specified in paragraph (1)
8 based on the de minimis quantity of energy
9 use of a Federal building, industrial proc-
10 ess, or structure.

11 “(3) PLAN.—Not later than 6 months after the
12 date guidelines are established under paragraph (2),
13 in a report submitted by the agency under section
14 548(a), each agency shall submit to the Secretary a
15 plan describing how the agency will implement the
16 requirements of paragraph (1), including (A) how
17 the agency will designate personnel primarily respon-
18 sible for achieving the requirements and (B) dem-
19 onstration by the agency, complete with documenta-
20 tion, of any finding that advanced meters or ad-
21 vanced metering devices, as defined in paragraph
22 (1), are not practicable.”.

1 **SEC. 104. PROCUREMENT OF ENERGY EFFICIENT PROD-**
2 **UCTS.**

3 (a) REQUIREMENTS.—Part 3 of title V of the Na-
4 tional Energy Conservation Policy Act (42 U.S.C. 8251
5 et seq.), as amended by section 101, is amended by adding
6 at the end the following:

7 **“SEC. 553. FEDERAL PROCUREMENT OF ENERGY EFFI-**
8 **CIENT PRODUCTS.**

9 “(a) DEFINITIONS.—In this section:

10 “(1) AGENCY.—The term ‘agency’ has the
11 meaning given that term in section 7902(a) of title
12 5, United States Code.

13 “(2) ENERGY STAR PRODUCT.—The term ‘En-
14 ergy Star product’ means a product that is rated for
15 energy efficiency under an Energy Star program.

16 “(3) ENERGY STAR PROGRAM.—The term ‘En-
17 ergy Star program’ means the program established
18 by section 324A of the Energy Policy and Conserva-
19 tion Act.

20 “(4) FEMP DESIGNATED PRODUCT.—The term
21 ‘FEMP designated product’ means a product that is
22 designated under the Federal Energy Management
23 Program of the Department of Energy as being
24 among the highest 25 percent of equivalent products
25 for energy efficiency.

1 “(5) **PRODUCT.**—The term ‘product’ does not
2 include any energy consuming product or system de-
3 signed or procured for combat or combat-related
4 missions.

5 “(b) **PROCUREMENT OF ENERGY EFFICIENT PROD-**
6 **UCTS.**—

7 “(1) **REQUIREMENT.**—To meet the require-
8 ments of an agency for an energy consuming prod-
9 uct, the head of the agency shall, except as provided
10 in paragraph (2), procure—

11 “(A) an Energy Star product; or

12 “(B) a FEMP designated product.

13 “(2) **EXCEPTIONS.**—The head of an agency is
14 not required to procure an Energy Star product or
15 FEMP designated product under paragraph (1) if
16 the head of the agency finds in writing that—

17 “(A) an Energy Star product or FEMP
18 designated product is not cost-effective over the
19 life of the product taking energy cost savings
20 into account; or

21 “(B) no Energy Star product or FEMP
22 designated product is reasonably available that
23 meets the functional requirements of the agen-
24 cy.

1 “(3) PROCUREMENT PLANNING.—The head of
2 an agency shall incorporate into the specifications
3 for all procurements involving energy consuming
4 products and systems, including guide specifications,
5 project specifications, and construction, renovation,
6 and services contracts that include provision of en-
7 ergy consuming products and systems, and into the
8 factors for the evaluation of offers received for the
9 procurement, criteria for energy efficiency that are
10 consistent with the criteria used for rating Energy
11 Star products and for rating FEMP designated
12 products.

13 “(c) LISTING OF ENERGY EFFICIENT PRODUCTS IN
14 FEDERAL CATALOGS.—Energy Star products and FEMP
15 designated products shall be clearly identified and promi-
16 nently displayed in any inventory or listing of products
17 by the General Services Administration or the Defense Lo-
18 gistics Agency. The General Services Administration or
19 the Defense Logistics Agency shall supply only Energy
20 Star products or FEMP designated products for all prod-
21 uct categories covered by the Energy Star program or the
22 Federal Energy Management Program, except in cases
23 where the agency ordering a product specifies in writing
24 that no Energy Star product or FEMP designated product
25 is available to meet the buyer’s functional requirements,

1 or that no Energy Star product or FEMP designated
2 product is cost-effective for the intended application over
3 the life of the product, taking energy cost savings into ac-
4 count.

5 “(d) SPECIFIC PRODUCTS.—(1) In the case of elec-
6 tric motors of 1 to 500 horsepower, agencies shall select
7 only premium efficient motors that meet a standard des-
8 ignated by the Secretary. The Secretary shall designate
9 such a standard not later than 120 days after the date
10 of the enactment of this section, after considering the rec-
11 ommendations of associated electric motor manufacturers
12 and energy efficiency groups.

13 “(2) All Federal agencies are encouraged to take ac-
14 tions to maximize the efficiency of air conditioning and
15 refrigeration equipment, including appropriate cleaning
16 and maintenance, including the use of any system treat-
17 ment or additive that will reduce the electricity consumed
18 by air conditioning and refrigeration equipment. Any such
19 treatment or additive must be—

20 “(A) determined by the Secretary to be effective
21 in increasing the efficiency of air conditioning and
22 refrigeration equipment without having an adverse
23 impact on air conditioning performance (including
24 cooling capacity) or equipment useful life;

1 “(B) determined by the Administrator of the
2 Environmental Protection Agency to be environ-
3 mentally safe; and

4 “(C) shown to increase seasonal energy effi-
5 ciency ratio (SEER) or energy efficiency ratio
6 (EER) when tested by the National Institute of
7 Standards and Technology according to Department
8 of Energy test procedures without causing any ad-
9 verse impact on the system, system components, the
10 refrigerant or lubricant, or other materials in the
11 system.

12 Results of testing described in subparagraph (C)
13 shall be published in the Federal Register for public
14 review and comment. For purposes of this section, a
15 hardware device or primary refrigerant shall not be
16 considered an additive.

17 “(e) REGULATIONS.—Not later than 180 days after
18 the date of the enactment of this section, the Secretary
19 shall issue guidelines to carry out this section.”.

20 (b) CONFORMING AMENDMENT.—The table of con-
21 tents of the National Energy Conservation Policy Act is
22 further amended by inserting after the item relating to
23 section 552 the following new item:

“Sec. 553. Federal procurement of energy efficient products”.

1 SEC. 105. ENERGY SAVINGS PERFORMANCE CONTRACTS.

2 (a) EXTENSION.—Section 801(c) of the National En-
3 ergy Conservation Policy Act (42 U.S.C. 8287(c)) is
4 amended by striking “2006” and inserting “2016”.

5 (b) EXTENSION OF AUTHORITY.—Any energy sav-
6 ings performance contract entered into under section 801
7 of the National Energy Conservation Policy Act (42
8 U.S.C. 8287) after October 1, 2003, and before the date
9 of enactment of this Act, shall be considered to have been
10 entered into under that section.

**11 SEC. 106. VOLUNTARY COMMITMENTS TO REDUCE INDUS-
12 TRIAL ENERGY INTENSITY.**

13 (a) DEFINITION OF ENERGY INTENSITY.—In this
14 section, the term “energy intensity” means the primary
15 energy consumed for each unit of physical output in an
16 industrial process.

17 (b) VOLUNTARY AGREEMENTS.—The Secretary may
18 enter into voluntary agreements with 1 or more persons
19 in industrial sectors that consume significant quantities
20 of primary energy for each unit of physical output to re-
21 duce the energy intensity of the production activities of
22 the persons.

23 (c) GOAL.—Voluntary agreements under this section
24 shall have as a goal the reduction of energy intensity by
25 not less than 2.5 percent each year during the period of
26 calendar years 2007 through 2016.

1 (d) RECOGNITION.—The Secretary, in cooperation
2 with other appropriate Federal agencies, shall develop
3 mechanisms to recognize and publicize the achievements
4 of participants in voluntary agreements under this section.

5 (e) TECHNICAL ASSISTANCE.—A person that enters
6 into an agreement under this section and continues to
7 make a good faith effort to achieve the energy efficiency
8 goals specified in the agreement shall be eligible to receive
9 from the Secretary a grant or technical assistance, as ap-
10 propriate, to assist in the achievement of those goals.

11 (f) REPORT.—Not later than each of June 30, 2012,
12 and June 30, 2017, the Secretary shall submit to Con-
13 gress a report that—

14 (1) evaluates the success of the voluntary agree-
15 ments under this section; and

16 (2) provides independent verification of a sam-
17 ple of the energy savings estimates provided by par-
18 ticipating firms.

19 **SEC. 107. ADVANCED BUILDING EFFICIENCY TESTBED.**

20 (a) ESTABLISHMENT.—The Secretary, in consulta-
21 tion with the Administrator of General Services, shall es-
22 tablish an Advanced Building Efficiency Testbed program
23 for the development, testing, and demonstration of ad-
24 vanced engineering systems, components, and materials to
25 enable innovations in building technologies. The program

1 shall evaluate efficiency concepts for government and in-
2 dustry buildings, and demonstrate the ability of next gen-
3 eration buildings to support individual and organizational
4 productivity and health (including by improving indoor air
5 quality) as well as flexibility and technological change to
6 improve environmental sustainability. Such program shall
7 complement and not duplicate existing national programs.

8 (b) PARTICIPANTS.—The program established under
9 subsection (a) shall be led by a university with the ability
10 to combine the expertise from numerous academic fields
11 including, at a minimum, intelligent workplaces and ad-
12 vanced building systems and engineering, electrical and
13 computer engineering, computer science, architecture,
14 urban design, and environmental and mechanical engi-
15 neering. Such university shall partner with other univer-
16 sities and entities who have established programs and the
17 capability of advancing innovative building efficiency tech-
18 nologies.

19 (c) AUTHORIZATION OF APPROPRIATIONS.—There
20 are authorized to be appropriated to the Secretary to carry
21 out this section \$6,000,000 for each of the fiscal years
22 2006 through 2008, to remain available until expended.
23 For any fiscal year in which funds are expended under
24 this section, the Secretary shall provide $\frac{1}{3}$ of the total
25 amount to the lead university described in subsection (b),

1 local government building or other public facility
2 that—

3 “(A) involves the procurement of cement
4 or concrete; and

5 “(B) is carried out, in whole or in part,
6 using Federal funds.

7 “(3) RECOVERED MINERAL COMPONENT.—The
8 term ‘recovered mineral component’ means—

9 “(A) ground granulated blast furnace slag,
10 excluding lead slag;

11 “(B) coal combustion fly ash; and

12 “(C) any other waste material or byprod-
13 uct recovered or diverted from solid waste that
14 the Administrator, in consultation with an
15 agency head, determines should be treated as
16 recovered mineral component under this section
17 for use in cement or concrete projects paid for,
18 in whole or in part, by the agency head.

19 “(b) IMPLEMENTATION OF REQUIREMENTS.—

20 “(1) IN GENERAL.—Not later than 1 year after
21 the date of enactment of this section, the Adminis-
22 trator and each agency head shall take such actions
23 as are necessary to implement fully all procurement
24 requirements and incentives in effect as of the date
25 of enactment of this section (including guidelines

1 under section 6002) that provide for the use of ce-
2 ment and concrete incorporating recovered mineral
3 component in cement or concrete projects.

4 “(2) PRIORITY.—In carrying out paragraph (1),
5 an agency head shall give priority to achieving great-
6 er use of recovered mineral component in cement or
7 concrete projects for which recovered mineral compo-
8 nents historically have not been used or have been
9 used only minimally.

10 “(3) FEDERAL PROCUREMENT REQUIRE-
11 MENTS.—The Administrator and each agency head
12 shall carry out this subsection in accordance with
13 section 6002.

14 “(c) FULL IMPLEMENTATION STUDY.—

15 “(1) IN GENERAL.—The Administrator, in co-
16 operation with the Secretary of Transportation and
17 the Secretary of Energy, shall conduct a study to de-
18 termine the extent to which procurement require-
19 ments, when fully implemented in accordance with
20 subsection (b), may realize energy savings and envi-
21 ronmental benefits attainable with substitution of re-
22 covered mineral component in cement used in ce-
23 ment or concrete projects.

24 “(2) MATTERS TO BE ADDRESSED.—The study
25 shall—

1 “(A) quantify—

2 “(i) the extent to which recovered
3 mineral components are being substituted
4 for Portland cement, particularly as a re-
5 sult of procurement requirements; and

6 “(ii) the energy savings and environ-
7 mental benefits associated with the substi-
8 tution;

9 “(B) identify all barriers in procurement
10 requirements to greater realization of energy
11 savings and environmental benefits, including
12 barriers resulting from exceptions from the law;
13 and

14 “(C)(i) identify potential mechanisms to
15 achieve greater substitution of recovered min-
16 eral component in types of cement or concrete
17 projects for which recovered mineral compo-
18 nents historically have not been used or have
19 been used only minimally;

20 “(ii) evaluate the feasibility of establishing
21 guidelines or standards for optimized substi-
22 tution rates of recovered mineral component in
23 those cement or concrete projects; and

24 “(iii) identify any potential environmental
25 or economic effects that may result from great-

1 er substitution of recovered mineral component
2 in those cement or concrete projects.

3 “(3) REPORT.—Not later than 30 months after
4 the date of enactment of this section, the Adminis-
5 trator shall submit to Congress a report on the
6 study.

7 “(d) ADDITIONAL PROCUREMENT REQUIREMENTS.—
8 Unless the study conducted under subsection (c) identifies
9 any effects or other problems described in subsection
10 (c)(2)(C)(iii) that warrant further review or delay, the Ad-
11 ministrators and each agency head shall, not later than 1
12 year after the date on which the report under subsection
13 (c)(3) is submitted, take additional actions under this Act
14 to establish procurement requirements and incentives that
15 provide for the use of cement and concrete with increased
16 substitution of recovered mineral component in the con-
17 struction and maintenance of cement or concrete
18 projects—

19 “(1) to realize more fully the energy savings
20 and environmental benefits associated with increased
21 substitution; and

22 “(2) to eliminate barriers identified under sub-
23 section (c)(2)(B).

24 “(e) EFFECT OF SECTION.—Nothing in this section
25 affects the requirements of section 6002 (including the

1 guidelines and specifications for implementing those re-
2 quirements).”.

3 (b) CONFORMING AMENDMENT.—The table of con-
4 tents of the Solid Waste Disposal Act is amended by add-
5 ing after the item relating to section 6004 the following:

“Sec. 6005. Increased use of recovered mineral component in federally funded
projects involving procurement of cement or concrete.”.

6 **SEC. 109. FEDERAL BUILDING PERFORMANCE STANDARDS.**

7 Section 305(a) of the Energy Conservation and Pro-
8 duction Act (42 U.S.C. 6834(a)) is amended—

9 (1) in paragraph (2)(A), by striking “CABO
10 Model Energy Code, 1992 (in the case of residential
11 buildings) or ASHRAE Standard 90.1–1989” and
12 inserting “the 2004 International Energy Conserva-
13 tion Code (in the case of residential buildings) or
14 ASHRAE Standard 90.1–2004”; and

15 (2) by adding at the end the following:

16 “(3)(A) Not later than 1 year after the date of enact-
17 ment of this paragraph, the Secretary shall establish, by
18 rule, revised Federal building energy efficiency perform-
19 ance standards that require that—

20 “(i) if life-cycle cost-effective for new Federal
21 buildings—

22 “(I) the buildings be designed to achieve
23 energy consumption levels that are at least 30
24 percent below the levels established in the

1 version of the ASHRAE Standard or the Inter-
2 national Energy Conservation Code, as appro-
3 priate, that is in effect as of the date of enact-
4 ment of this paragraph; and

5 “(II) sustainable design principles are ap-
6 plied to the siting, design, and construction of
7 all new and replacement buildings; and

8 “(ii) if water is used to achieve energy effi-
9 ciency, water conservation technologies shall be ap-
10 plied to the extent that the technologies are life-cycle
11 cost-effective.

12 “(iii) Not later than 1 year after the date of approval
13 of each subsequent revision of the ASHRAE Standard or
14 the International Energy Conservation Code, as appro-
15 priate, the Secretary shall determine, based on the cost-
16 effectiveness of the requirements under the amendment,
17 whether the revised standards established under this para-
18 graph should be updated to reflect the amendment.

19 “(iv) In the budget request of the Federal agency for
20 each fiscal year and each report submitted by the Federal
21 agency under section 548(a) of the National Energy Con-
22 servation Policy Act (42 U.S.C. 8258(a)), the head of each
23 Federal agency shall include—

24 “(v) a list of all new Federal buildings owned,
25 operated, or controlled by the Federal agency; and

1 the National Park System, National Wildlife Refuge Sys-
2 tem, National Forest System, National Marine Sanc-
3 tuaries System, and other public lands and resources man-
4 aged by the Secretaries.

5 (c) **ENERGY EFFICIENT VEHICLES.**—To the extent
6 practicable, the Secretary of the Interior, the Secretary
7 of Commerce, and the Secretary of Agriculture shall seek
8 to use energy efficient motor vehicles, including vehicles
9 equipped with biodiesel or hybrid engine technologies, in
10 the management of the National Park System, National
11 Wildlife Refuge System, National Forest System, National
12 Marine Sanctuaries System, and other public lands and
13 resources managed by the Secretaries.

14 **Subtitle B—Energy Assistance and**
15 **State Programs**

16 **SEC. 121. LOW INCOME HOME ENERGY ASSISTANCE PRO-**
17 **GRAM.**

18 (a) **AUTHORIZATION OF APPROPRIATIONS.**—Section
19 2602(b) of the Low-Income Home Energy Assistance Act
20 of 1981 (42 U.S.C. 8621(b)) is amended by striking “and
21 \$2,000,000,000 for each of fiscal years 2002 through
22 2004” and inserting “and \$5,100,000,000 for each of fis-
23 cal years 2005 through 2007”.

1 (b) RENEWABLE FUELS.—The Low-Income Home
2 Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.)
3 is amended by adding at the end the following new section:

4 “RENEWABLE FUELS

5 “SEC. 2612. In providing assistance pursuant to this
6 title, a State, or any other person with which the State
7 makes arrangements to carry out the purposes of this title,
8 may purchase renewable fuels, including biomass.”.

9 (c) REPORT TO CONGRESS.—The Secretary shall re-
10 port to Congress on the use of renewable fuels in providing
11 assistance under the Low-Income Home Energy Assist-
12 ance Act of 1981 (42 U.S.C. 8621 et seq.).

13 **SEC. 122. WEATHERIZATION ASSISTANCE.**

14 (a) AUTHORIZATION OF APPROPRIATIONS.—Section
15 422 of the Energy Conservation and Production Act (42
16 U.S.C. 6872) is amended by striking “for fiscal years
17 1999 through 2003 such sums as may be necessary” and
18 inserting “\$500,000,000 for fiscal year 2006,
19 \$600,000,000 for fiscal year 2007, and \$700,000,000 for
20 fiscal year 2008”.

21 (b) ELIGIBILITY.—Section 412(7) of the Energy
22 Conservation and Production Act (42 U.S.C. 6862(7)) is
23 amended by striking “125 percent” both places it appears
24 and inserting “150 percent”.

1 **SEC. 123. STATE ENERGY PROGRAMS.**

2 (a) STATE ENERGY CONSERVATION PLANS.—Section
3 362 of the Energy Policy and Conservation Act (42 U.S.C.
4 6322) is amended by inserting at the end the following
5 new subsection:

6 “(g) The Secretary shall, at least once every 3 years,
7 invite the Governor of each State to review and, if nec-
8 essary, revise the energy conservation plan of such State
9 submitted under subsection (b) or (e). Such reviews should
10 consider the energy conservation plans of other States
11 within the region, and identify opportunities and actions
12 carried out in pursuit of common energy conservation
13 goals.”.

14 (b) STATE ENERGY EFFICIENCY GOALS.—Section
15 364 of the Energy Policy and Conservation Act (42 U.S.C.
16 6324) is amended to read as follows:

17 “STATE ENERGY EFFICIENCY GOALS

18 “SEC. 364. Each State energy conservation plan with
19 respect to which assistance is made available under this
20 part on or after the date of enactment of the Energy Pol-
21 icy Act of 2005 shall contain a goal, consisting of an im-
22 provement of 25 percent or more in the efficiency of use
23 of energy in the State concerned in calendar year 2012
24 as compared to calendar year 1990, and may contain in-
25 terim goals.”.

1 (c) AUTHORIZATION OF APPROPRIATIONS.—Section
2 365(f) of the Energy Policy and Conservation Act (42
3 U.S.C. 6325(f)) is amended by striking “for fiscal years
4 1999 through 2003 such sums as may be necessary” and
5 inserting “\$100,000,000 for each of the fiscal years 2006
6 and 2007 and \$125,000,000 for fiscal year 2008”.

7 **SEC. 124. ENERGY EFFICIENT APPLIANCE REBATE PRO-**
8 **GRAMS.**

9 (a) DEFINITIONS.—In this section:

10 (1) ELIGIBLE STATE.—The term “eligible
11 State” means a State that meets the requirements
12 of subsection (b).

13 (2) ENERGY STAR PROGRAM.—The term “En-
14 ergy Star program” means the program established
15 by section 324A of the Energy Policy and Conserva-
16 tion Act.

17 (3) RESIDENTIAL ENERGY STAR PRODUCT.—
18 The term “residential Energy Star product” means
19 a product for a residence that is rated for energy ef-
20 ficiency under the Energy Star program.

21 (4) STATE ENERGY OFFICE.—The term “State
22 energy office” means the State agency responsible
23 for developing State energy conservation plans under
24 section 362 of the Energy Policy and Conservation
25 Act (42 U.S.C. 6322).

1 (5) STATE PROGRAM.—The term “State pro-
2 gram” means a State energy efficient appliance re-
3 bate program described in subsection (b)(1).

4 (b) ELIGIBLE STATES.—A State shall be eligible to
5 receive an allocation under subsection (c) if the State—

6 (1) establishes (or has established) a State en-
7 ergy efficient appliance rebate program to provide
8 rebates to residential consumers for the purchase of
9 residential Energy Star products to replace used ap-
10 pliances of the same type;

11 (2) submits an application for the allocation at
12 such time, in such form, and containing such infor-
13 mation as the Secretary may require; and

14 (3) provides assurances satisfactory to the Sec-
15 retary that the State will use the allocation to sup-
16 plement, but not supplant, funds made available to
17 carry out the State program.

18 (c) AMOUNT OF ALLOCATIONS.—

19 (1) IN GENERAL.—Subject to paragraph (2),
20 for each fiscal year, the Secretary shall allocate to
21 the State energy office of each eligible State to carry
22 out subsection (d) an amount equal to the product
23 obtained by multiplying the amount made available
24 under subsection (f) for the fiscal year by the ratio
25 that the population of the State in the most recent

1 calendar year for which data are available bears to
2 the total population of all eligible States in that cal-
3 endar year.

4 (2) MINIMUM ALLOCATIONS.—For each fiscal
5 year, the amounts allocated under this subsection
6 shall be adjusted proportionately so that no eligible
7 State is allocated a sum that is less than an amount
8 determined by the Secretary.

9 (d) USE OF ALLOCATED FUNDS.—The allocation to
10 a State energy office under subsection (c) may be used
11 to pay up to 50 percent of the cost of establishing and
12 carrying out a State program.

13 (e) ISSUANCE OF REBATES.—Rebates may be pro-
14 vided to residential consumers that meet the requirements
15 of the State program. The amount of a rebate shall be
16 determined by the State energy office, taking into consid-
17 eration—

18 (1) the amount of the allocation to the State
19 energy office under subsection (c);

20 (2) the amount of any Federal or State tax in-
21 centive available for the purchase of the residential
22 Energy Star product; and

23 (3) the difference between the cost of the resi-
24 dential Energy Star product and the cost of an ap-
25 pliance that is not a residential Energy Star prod-

1 uct, but is of the same type as, and is the nearest
2 capacity, performance, and other relevant character-
3 istics (as determined by the State energy office) to,
4 the residential Energy Star product.

5 (f) AUTHORIZATION OF APPROPRIATIONS.—There
6 are authorized to be appropriated to the Secretary to carry
7 out this section \$50,000,000 for each of the fiscal years
8 2006 through 2010.

9 **SEC. 125. ENERGY EFFICIENT PUBLIC BUILDINGS.**

10 (a) GRANTS.—The Secretary may make grants to the
11 State agency responsible for developing State energy con-
12 servation plans under section 362 of the Energy Policy
13 and Conservation Act (42 U.S.C. 6322), or, if no such
14 agency exists, a State agency designated by the Governor
15 of the State, to assist units of local government in the
16 State in improving the energy efficiency of public buildings
17 and facilities—

18 (1) through construction of new energy efficient
19 public buildings that use at least 30 percent less en-
20 ergy than a comparable public building constructed
21 in compliance with standards prescribed in the most
22 recent version of the International Energy Conserva-
23 tion Code, or a similar State code intended to
24 achieve substantially equivalent efficiency levels; or

1 (2) through renovation of existing public build-
2 ings to achieve reductions in energy use of at least
3 30 percent as compared to the baseline energy use
4 in such buildings prior to renovation, assuming a 3-
5 year, weather-normalized average for calculating
6 such baseline.

7 (b) ADMINISTRATION.—State energy offices receiving
8 grants under this section shall—

9 (1) maintain such records and evidence of com-
10 pliance as the Secretary may require; and

11 (2) develop and distribute information and ma-
12 terials and conduct programs to provide technical
13 services and assistance to encourage planning, fi-
14 nancing, and design of energy efficient public build-
15 ings by units of local government.

16 (c) AUTHORIZATION OF APPROPRIATIONS.—For the
17 purposes of this section, there are authorized to be appro-
18 priated to the Secretary \$30,000,000 for each of fiscal
19 years 2006 through 2010. Not more than 10 percent of
20 appropriated funds shall be used for administration.

21 **SEC. 126. LOW INCOME COMMUNITY ENERGY EFFICIENCY**
22 **PILOT PROGRAM.**

23 (a) GRANTS.—The Secretary is authorized to make
24 grants to units of local government, private, non-profit
25 community development organizations, and Indian tribe

1 economic development entities to improve energy effi-
2 ciency; identify and develop alternative, renewable, and
3 distributed energy supplies; and increase energy conserva-
4 tion in low income rural and urban communities.

5 (b) PURPOSE OF GRANTS.—The Secretary may make
6 grants on a competitive basis for—

7 (1) investments that develop alternative, renew-
8 able, and distributed energy supplies;

9 (2) energy efficiency projects and energy con-
10 servation programs;

11 (3) studies and other activities that improve en-
12 ergy efficiency in low income rural and urban com-
13 munities;

14 (4) planning and development assistance for in-
15 creasing the energy efficiency of buildings and facili-
16 ties; and

17 (5) technical and financial assistance to local
18 government and private entities on developing new
19 renewable and distributed sources of power or com-
20 bined heat and power generation.

21 (c) DEFINITION.—For purposes of this section, the
22 term “Indian tribe” means any Indian tribe, band, nation,
23 or other organized group or community, including any
24 Alaskan Native village or regional or village corporation
25 as defined in or established pursuant to the Alaska Native

1 Claims Settlement Act (43 U.S.C. 1601 et seq.), that is
2 recognized as eligible for the special programs and services
3 provided by the United States to Indians because of their
4 status as Indians.

5 (d) AUTHORIZATION OF APPROPRIATIONS.—For the
6 purposes of this section there are authorized to be appro-
7 priated to the Secretary \$20,000,000 for each of fiscal
8 years 2006 through 2008.

9 **SEC. 127. STATE TECHNOLOGIES ADVANCEMENT COLLABO-**
10 **RATIVE.**

11 (a) IN GENERAL.—The Secretary, in cooperation
12 with the States, shall establish a cooperative program for
13 research, development, demonstration, and deployment of
14 technologies in which there is a common Federal and State
15 energy efficiency, renewable energy, and fossil energy in-
16 terest, to be known as the “State Technologies Advance-
17 ment Collaborative” (referred to in this section as the
18 “Collaborative”).

19 (b) DUTIES.—The Collaborative shall—

20 (1) leverage Federal and State funding through
21 cost-shared activity;

22 (2) reduce redundancies in Federal and State
23 funding; and

24 (3) create multistate projects to be awarded
25 through a competitive process.

1 (c) ADMINISTRATION.—The Collaborative shall be
2 administered through an agreement between the Depart-
3 ment and appropriate State-based organizations.

4 (d) FUNDING SOURCES.—Funding for the Collabo-
5 rative may be provided from—

6 (1) amounts specifically appropriated for the
7 Collaborative; or

8 (2) amounts that may be allocated from other
9 appropriations without changing the purpose for
10 which the amounts are appropriated.

11 (e) AUTHORIZATION OF APPROPRIATIONS.—There
12 are authorized to carry out this section such sums as are
13 necessary for each of fiscal years 2006 through 2010.

14 **SEC. 128. STATE BUILDING ENERGY EFFICIENCY CODES IN-**
15 **CENTIVES.**

16 Section 304(e) of the Energy Conservation and Pro-
17 duction Act (42 U.S.C. 6833(e)) is amended—

18 (1) in paragraph (1), by inserting before the pe-
19 riod at the end of the first sentence the following:
20 “, including increasing and verifying compliance with
21 such codes”; and

22 (2) by striking paragraph (2) and inserting the
23 following:

24 “(2) Additional funding shall be provided under this
25 subsection for implementation of a plan to achieve and

1 document at least a 90 percent rate of compliance with
2 residential and commercial building energy efficiency
3 codes, based on energy performance—

4 “(A) to a State that has adopted and is imple-
5 menting, on a statewide basis—

6 “(i) a residential building energy efficiency
7 code that meets or exceeds the requirements of
8 the 2004 International Energy Conservation
9 Code, or any succeeding version of that code
10 that has received an affirmative determination
11 from the Secretary under subsection (a)(5)(A);
12 and

13 “(ii) a commercial building energy effi-
14 ciency code that meets or exceeds the require-
15 ments of the ASHRAE Standard 90.1–2004, or
16 any succeeding version of that standard that
17 has received an affirmative determination from
18 the Secretary under subsection (b)(2)(A); or

19 “(B) in a State in which there is no statewide
20 energy code either for residential buildings or for
21 commercial buildings, to a local government that has
22 adopted and is implementing residential and com-
23 mercial building energy efficiency codes, as described
24 in subparagraph (A).

1 “(3) Of the amounts made available under this sub-
2 section, the Secretary may use \$500,000 for each fiscal
3 year to train State and local officials to implement codes
4 described in paragraph (2).

5 “(4)(A) There are authorized to be appropriated to
6 carry out this subsection—

7 “(i) \$25,000,000 for each of fiscal years 2006
8 through 2010; and

9 “(ii) such sums as are necessary for fiscal year
10 2011 and each fiscal year thereafter.

11 “(iii) Funding provided to States under paragraph
12 (2) for each fiscal year shall not exceed $\frac{1}{2}$ of the excess
13 of funding under this subsection over \$5,000,000 for the
14 fiscal year.”.

15 **Subtitle C—Energy Efficient** 16 **Products**

17 **SEC. 131. ENERGY STAR PROGRAM.**

18 (a) IN GENERAL.—The Energy Policy and Conserva-
19 tion Act is amended by inserting after section 324 (42
20 U.S.C. 6294) the following:

21 “ENERGY STAR PROGRAM

22 “SEC. 324A. (a) IN GENERAL.—There is established
23 within the Department of Energy and the Environmental
24 Protection Agency a voluntary program to identify and
25 promote energy-efficient products and buildings in order
26 to reduce energy consumption, improve energy security,

1 and reduce pollution through voluntary labeling of, or
2 other forms of communication about, products and build-
3 ings that meet the highest energy conservation standards.

4 “(b) DIVISION OF RESPONSIBILITIES.—Responsibil-
5 ities under the program shall be divided between the De-
6 partment of Energy and the Environmental Protection
7 Agency in accordance with the terms of applicable agree-
8 ments between those agencies.

9 “(c) DUTIES.—The Administrator and the Secretary
10 shall—

11 “(1) promote Energy Star compliant tech-
12 nologies as the preferred technologies in the market-
13 place for—

14 “(A) achieving energy efficiency; and

15 “(B) reducing pollution;

16 “(2) work to enhance public awareness of the
17 Energy Star label, including by providing special
18 outreach to small businesses;

19 “(3) preserve the integrity of the Energy Star
20 label;

21 “(4) regularly update Energy Star product cri-
22 teria for product categories;

23 “(5) solicit comments from interested parties
24 prior to establishing or revising an Energy Star
25 product category, specification, or criterion (or prior

1 to effective dates for any such product category,
2 specification, or criterion);

3 “(6) on adoption of a new or revised product
4 category, specification, or criterion, provide reason-
5 able notice to interested parties of any changes (in-
6 cluding effective dates) in product categories, speci-
7 fications, or criteria, along with—

8 “(A) an explanation of the changes; and

9 “(B) as appropriate, responses to com-
10 ments submitted by interested parties; and

11 “(7) provide appropriate lead time (which shall
12 be 270 days, unless the Agency or Department
13 specifies otherwise) prior to the applicable effective
14 date for a new or a significant revision to a product
15 category, specification, or criterion, taking into ac-
16 count the timing requirements of the manufacturing,
17 product marketing, and distribution process for the
18 specific product addressed.

19 “(d) DEADLINES.—The Secretary shall establish new
20 qualifying levels—

21 “(1) not later than January 1, 2006, for clothes
22 washers and dishwashers, effective beginning Janu-
23 ary 1, 2007; and

24 “(2) not later than January 1, 2008, for clothes
25 washers, effective beginning January 1, 2010.”.

1 (b) TABLE OF CONTENTS AMENDMENT.—The table
2 of contents of the Energy Policy and Conservation Act (42
3 U.S.C. prec. 6201) is amended by inserting after the item
4 relating to section 324 the following:

“Sec. 324A. Energy Star program.”.

5 **SEC. 132. HVAC MAINTENANCE CONSUMER EDUCATION**
6 **PROGRAM.**

7 Section 337 of the Energy Policy and Conservation
8 Act (42 U.S.C. 6307) is amended by adding at the end
9 the following:

10 “(c) HVAC MAINTENANCE.—(1) To ensure that in-
11 stalled air conditioning and heating systems operate at
12 maximum rated efficiency levels, the Secretary shall, not
13 later than 180 days after the date of enactment of this
14 subsection, carry out a program to educate homeowners
15 and small business owners concerning the energy savings
16 from properly conducted maintenance of air conditioning,
17 heating, and ventilating systems.

18 “(2) The Secretary shall carry out the program under
19 paragraph (1), on a cost-shared basis, in cooperation with
20 the Administrator of the Environmental Protection Agen-
21 cy and any other entities that the Secretary determines
22 to be appropriate, including industry trade associations,
23 industry members, and energy efficiency organizations.

24 “(d) SMALL BUSINESS EDUCATION AND ASSIST-
25 ANCE.—(1) The Administrator of the Small Business Ad-

1 ministration, in consultation with the Secretary and the
2 Administrator of the Environmental Protection Agency,
3 shall develop and coordinate a Government-wide program,
4 building on the Energy Star for Small Business Program,
5 to assist small businesses in—

6 “(A) becoming more energy efficient;

7 “(B) understanding the cost savings from im-
8 proved energy efficiency;

9 “(C) understanding and accessing Federal pro-
10 curement opportunities with regard to Energy Star
11 technologies and products; and

12 “(D) identifying financing options for energy
13 efficiency upgrades.

14 “(2) The Secretary, the Administrator of the Envi-
15 ronmental Protection Agency, and the Administrator of
16 the Small Business Administration shall make program in-
17 formation available to small business concerns directly
18 through the district offices and resource partners of the
19 Small Business Administration, including small business
20 development centers, women’s business centers, and the
21 Service Corps of Retired Executives (SCORE), and
22 through other Federal agencies, including the Federal
23 Emergency Management Agency and the Department of
24 Agriculture.

1 “(3) The Secretary, on a cost shared basis in coopera-
2 tion with the Administrator of the Environmental Protec-
3 tion Agency, shall provide to the Small Business Adminis-
4 tration all advertising, marketing, and other written mate-
5 rials necessary for the dissemination of information under
6 paragraph (2).

7 “(4) There are authorized to be appropriated such
8 sums as may be necessary to carry out this subsection,
9 which shall remain available until expended.”.

10 **SEC. 133. PUBLIC ENERGY EDUCATION PROGRAM.**

11 (a) **IN GENERAL.**—Not later than 180 days after the
12 date of enactment of this Act, the Secretary shall convene
13 an organizational conference for the purpose of estab-
14 lishing an ongoing, self-sustaining national public energy
15 education program.

16 (b) **PARTICIPANTS.**—The Secretary shall invite to
17 participate in the conference individuals and entities rep-
18 resenting all aspects of energy production and distribu-
19 tion, including—

- 20 (1) industrial firms;
- 21 (2) professional societies;
- 22 (3) educational organizations;
- 23 (4) trade associations; and
- 24 (5) governmental agencies.

25 (c) **PURPOSE, SCOPE, AND STRUCTURE.**—

1 (1) **PURPOSE.**—The purpose of the conference
2 shall be to establish an ongoing, self-sustaining na-
3 tional public energy education program to examine
4 and recognize interrelationships between energy
5 sources in all forms, including—

6 (A) conservation and energy efficiency;

7 (B) the role of energy use in the economy;

8 and

9 (C) the impact of energy use on the envi-
10 ronment.

11 (2) **SCOPE AND STRUCTURE.**—Taking into con-
12 sideration the purpose described in paragraph (1),
13 the participants in the conference invited under sub-
14 section (b) shall design the scope and structure of
15 the program described in subsection (a).

16 (d) **TECHNICAL ASSISTANCE.**—The Secretary shall
17 provide technical assistance and other guidance necessary
18 to carry out the program described in subsection (a).

19 (e) **AUTHORIZATION OF APPROPRIATIONS.**—There
20 are authorized to be appropriated such sums as are nec-
21 essary to carry out this section.

1 **SEC. 134. ENERGY EFFICIENCY PUBLIC INFORMATION INI-**
2 **TIATIVE.**

3 (a) IN GENERAL.—The Secretary shall carry out a
4 comprehensive national program, including advertising
5 and media awareness, to inform consumers about—

6 (1) the need to reduce energy consumption dur-
7 ing the 4-year period beginning on the date of enact-
8 ment of this Act;

9 (2) the benefits to consumers of reducing con-
10 sumption of electricity, natural gas, and petroleum,
11 particularly during peak use periods;

12 (3) the importance of low energy costs to eco-
13 nomic growth and preserving manufacturing jobs in
14 the United States; and

15 (4) practical, cost-effective measures that con-
16 sumers can take to reduce consumption of elec-
17 tricity, natural gas, and gasoline, including—

18 (A) maintaining and repairing heating and
19 cooling ducts and equipment;

20 (B) weatherizing homes and buildings;

21 (C) purchasing energy efficient products;

22 and

23 (D) proper tire maintenance.

24 (b) COOPERATION.—The program carried out under
25 subsection (a) shall—

1 2003 (Data Sheet 7881–ANSI–3007–1)”;

2 and

3 (iii) in clause (iii), by striking

4 “C78.1–1978(R1984)” and inserting

5 “C78.81–2003 (Data Sheet 7881–ANSI–

6 1019–1)”; and

7 (B) by adding at the end the following:

8 “(M) The term ‘F34T12 lamp’ (also known as

9 a ‘F40T12/ES lamp’) means a nominal 34 watt tu-

10 bular fluorescent lamp that is 48 inches in length

11 and 1½ inches in diameter, and conforms to ANSI

12 standard C78.81–2003 (Data Sheet 7881–ANSI–

13 1006–1).

14 “(N) The term ‘F96T12/ES lamp’ means a

15 nominal 60 watt tubular fluorescent lamp that is 96

16 inches in length and 1½ inches in diameter, and

17 conforms to ANSI standard C78.81–2003 (Data

18 Sheet 7881–ANSI–3006–1).

19 “(O) The term ‘F96T12HO/ES lamp’ means a

20 nominal 95 watt tubular fluorescent lamp that is 96

21 inches in length and 1½ inches in diameter, and

22 conforms to ANSI standard C78.81–2003 (Data

23 Sheet 7881–ANSI–1017–1).

24 “(P) The term ‘replacement ballast’ means a

25 ballast that—

1 “(i) is designed for use to replace an exist-
2 ing ballast in a previously installed luminaire;

3 “(ii) is marked ‘FOR REPLACEMENT
4 USE ONLY’;

5 “(iii) is shipped by the manufacturer in
6 packages containing not more than 10 ballasts;
7 and

8 “(iv) has output leads that when fully ex-
9 tended are a total length that is less than the
10 length of the lamp with which the ballast is in-
11 tended to be operated.”;

12 (2) in paragraph (30)(S)—

13 (A) by inserting “(i)” before “The term”;
14 and

15 (B) by adding at the end the following:

16 “(ii) The term ‘medium base compact fluo-
17 rescent lamp’ does not include—

18 “(I) any lamp that is—

19 “(aa) specifically designed to be
20 used for special purpose applications;
21 and

22 “(bb) unlikely to be used in gen-
23 eral purpose applications, such as the
24 applications described in subpara-
25 graph (D); or

1 “(II) any lamp not described in sub-
2 paragraph (D) that is excluded by the Sec-
3 retary, by rule, because the lamp is—

4 “(aa) designed for special appli-
5 cations; and

6 “(bb) unlikely to be used in gen-
7 eral purpose applications.”; and

8 (3) by adding at the end the following:

9 “(32) The term ‘battery charger’ means a de-
10 vice that charges batteries for consumer products,
11 including battery chargers embedded in other con-
12 sumer products.

13 “(33)(A) The term ‘commercial prerinse spray
14 valve’ means a handheld device designed and mar-
15 keted for use with commercial dishwashing and ware
16 washing equipment that sprays water on dishes, flat-
17 ware, and other food service items for the purpose
18 of removing food residue before cleaning the items.

19 “(B) The Secretary may modify the definition
20 of ‘commercial prerinse spray valve’ by rule—

21 “(i) to include products—

22 “(I) that are extensively used in con-
23 junction with commercial dishwashing and
24 ware washing equipment;

1 “(II) the application of standards to
2 which would result in significant energy
3 savings; and

4 “(III) the application of standards to
5 which would meet the criteria specified in
6 section 325(o)(4); and

7 “(ii) to exclude products—

8 “(I) that are used for special food
9 service applications;

10 “(II) that are unlikely to be widely
11 used in conjunction with commercial dish-
12 washing and ware washing equipment; and

13 “(III) the application of standards to
14 which would not result in significant en-
15 ergy savings.

16 “(34) The term ‘dehumidifier’ means a self-con-
17 tained, electrically operated, and mechanically en-
18 cased assembly consisting of—

19 “(A) a refrigerated surface (evaporator)
20 that condenses moisture from the atmosphere;

21 “(B) a refrigerating system, including an
22 electric motor;

23 “(C) an air-circulating fan; and

24 “(D) means for collecting or disposing of
25 the condensate.

1 “(35)(A) The term ‘distribution transformer’
2 means a transformer that—

3 “(i) has an input voltage of 34.5 kilovolts
4 or less;

5 “(ii) has an output voltage of 600 volts or
6 less; and

7 “(iii) is rated for operation at a frequency
8 of 60 Hertz.

9 “(B) The term ‘distribution transformer’ does
10 not include—

11 “(i) a transformer with multiple voltage
12 taps, the highest of which equals at least 20
13 percent more than the lowest;

14 “(ii) a transformer that is designed to be
15 used in a special purpose application and is un-
16 likely to be used in general purpose applica-
17 tions, such as a drive transformer, rectifier
18 transformer, auto-transformer, Uninterruptible
19 Power System transformer, impedance trans-
20 former, regulating transformer, sealed and non-
21 ventilating transformer, machine tool trans-
22 former, welding transformer, grounding trans-
23 former, or testing transformer; or

1 “(iii) any transformer not listed in clause
2 (ii) that is excluded by the Secretary by rule be-
3 cause—

4 “(I) the transformer is designed for a
5 special application;

6 “(II) the transformer is unlikely to be
7 used in general purpose applications; and

8 “(III) the application of standards to
9 the transformer would not result in signifi-
10 cant energy savings.

11 “(36) The term ‘external power supply’ means
12 an external power supply circuit that is used to con-
13 vert household electric current into DC current or
14 lower-voltage AC current to operate a consumer
15 product.

16 “(37) The term ‘illuminated exit sign’ means a
17 sign that—

18 “(A) is designed to be permanently fixed in
19 place to identify an exit; and

20 “(B) consists of an electrically powered in-
21 tegral light source that—

22 “(i) illuminates the legend ‘EXIT’
23 and any directional indicators; and

1 “(ii) provides contrast between the
2 legend, any directional indicators, and the
3 background.

4 “(38) The term ‘low-voltage dry-type distribu-
5 tion transformer’ means a distribution transformer
6 that—

7 “(A) has an input voltage of 600 volts or
8 less;

9 “(B) is air-cooled; and

10 “(C) does not use oil as a coolant.

11 “(39) The term ‘pedestrian module’ means a
12 light signal used to convey movement information to
13 pedestrians.

14 “(40) The term ‘refrigerated bottled or canned
15 beverage vending machine’ means a commercial re-
16 frigerator that cools bottled or canned beverages and
17 dispenses the bottled or canned beverages on pay-
18 ment.

19 “(41) The term ‘standby mode’ means the low-
20 est power consumption mode, as established on an
21 individual product basis by the Secretary, that—

22 “(A) cannot be switched off or influenced
23 by the user; and

24 “(B) may persist for an indefinite time
25 when an appliance is—

1 “(i) connected to the main electricity
2 supply; and

3 “(ii) used in accordance with the in-
4 structions of the manufacturer.

5 “(42) The term ‘torchiere’ means a portable
6 electric lamp with a reflector bowl that directs light
7 upward to give indirect illumination.

8 “(43) The term ‘traffic signal module’ means a
9 standard 8-inch (200mm) or 12-inch (300mm) traf-
10 fic signal indication that—

11 “(A) consists of a light source, a lens, and
12 all other parts necessary for operation; and

13 “(B) communicates movement messages to
14 drivers through red, amber, and green colors.

15 “(44) The term ‘transformer’ means a device
16 consisting of 2 or more coils of insulated wire that
17 transfers alternating current by electromagnetic in-
18 duction from 1 coil to another to change the original
19 voltage or current value.

20 “(45)(A) The term ‘unit heater’ means a self-
21 contained fan-type heater designed to be installed
22 within the heated space.

23 “(B) The term ‘unit heater’ does not include a
24 warm air furnace.

1 “(46)(A) The term ‘high intensity discharge
2 lamp’ means an electric-discharge lamp in which—

3 “(i) the light-producing arc is stabilized by
4 bulb wall temperature; and

5 “(ii) the arc tube has a bulb wall loading
6 in excess of 3 Watts/cm².

7 “(B) The term ‘high intensity discharge lamp’
8 includes mercury vapor, metal halide, and high-pres-
9 sure sodium lamps described in subparagraph (A).

10 “(47)(A) The term ‘mercury vapor lamp’ means
11 a high intensity discharge lamp in which the major
12 portion of the light is produced by radiation from
13 mercury operating at a partial pressure in excess of
14 100,000 Pa (approximately 1 atm).

15 “(B) The term ‘mercury vapor lamp’ includes
16 clear, phosphor-coated, and self-ballasted lamps de-
17 scribed in subparagraph (A).

18 “(48) The term ‘mercury vapor lamp ballast’
19 means a device that is designed and marketed to
20 start and operate mercury vapor lamps by providing
21 the necessary voltage and current.

22 “(49) The term ‘ceiling fan’ means a nonport-
23 able device that is suspended from a ceiling for cir-
24 culating air via the rotation of fan blades.

1 “(50) The term ‘ceiling fan light kit’ means
2 equipment designed to provide light from a ceiling
3 fan that can be—

4 “(A) integral, such that the equipment is
5 attached to the ceiling fan prior to the time of
6 retail sale; or

7 “(B) attachable, such that at the time of
8 retail sale the equipment is not physically at-
9 tached to the ceiling fan, but may be included
10 inside the ceiling fan at the time of sale or sold
11 separately for subsequent attachment to the
12 fan.”.

13 (b) **TEST PROCEDURES.**—Section 323 of the Energy
14 Policy and Conservation Act (42 U.S.C. 6293) is amend-
15 ed—

16 (1) in subsection (b), by adding at the end the
17 following:

18 “(9) Test procedures for illuminated exit signs shall
19 be based on the test method used under version 2.0 of
20 the Energy Star program of the Environmental Protection
21 Agency for illuminated exit signs.

22 “(10)(A) Test procedures for distribution trans-
23 formers and low voltage dry-type distribution transformers
24 shall be based on the ‘Standard Test Method for Meas-
25 uring the Energy Consumption of Distribution Trans-

1 formers’ prescribed by the National Electrical Manufac-
2 turers Association (NEMA TP 2–1998).

3 “(B) The Secretary may review and revise the test
4 procedures established under subparagraph (A).

5 “(C) For purposes of section 346(a), the test proce-
6 dures established under subparagraph (A) shall be consid-
7 ered to be the testing requirements prescribed by the Sec-
8 retary under section 346(a)(1) for distribution trans-
9 formers for which the Secretary makes a determination
10 that energy conservation standards would—

11 “(i) be technologically feasible and economically
12 justified; and

13 “(ii) result in significant energy savings.

14 “(11) Test procedures for traffic signal modules and
15 pedestrian modules shall be based on the test method used
16 under the Energy Star program of the Environmental
17 Protection Agency for traffic signal modules, as in effect
18 on the date of enactment of this paragraph.

19 “(12)(A) Test procedures for medium base compact
20 fluorescent lamps shall be based on the test methods for
21 compact fluorescent lamps used under the August 9, 2001,
22 version of the Energy Star program of the Environmental
23 Protection Agency and the Department of Energy.

1 “(B) Except as provided in subparagraph (C), me-
2 dium base compact fluorescent lamps shall meet all test
3 requirements for regulated parameters of section 325(cc).

4 “(C) Notwithstanding subparagraph (B), if manufac-
5 turers document engineering predictions and analysis that
6 support expected attainment of lumen maintenance at 40
7 percent rated life and lamp lifetime, medium base compact
8 fluorescent lamps may be marketed before completion of
9 the testing of lamp life and lumen maintenance at 40 per-
10 cent of rated life.

11 “(13) Test procedures for dehumidifiers shall be
12 based on the test criteria used under the Energy Star Pro-
13 gram Requirements for Dehumidifiers developed by the
14 Environmental Protection Agency, as in effect on the date
15 of enactment of this paragraph unless revised by the Sec-
16 retary pursuant to this section.

17 “(14) The test procedure for measuring flow rate for
18 commercial prerinse spray valves shall be based on Amer-
19 ican Society for Testing and Materials Standard F2324,
20 entitled ‘Standard Test Method for Pre-Rinse Spray
21 Valves.’

22 “(15) The test procedure for refrigerated bottled or
23 canned beverage vending machines shall be based on
24 American National Standards Institute/American Society
25 of Heating, Refrigerating and Air-Conditioning Engineers

1 Standard 32.1–2004, entitled ‘Methods of Testing for
2 Rating Vending Machines for Bottled, Canned or Other
3 Sealed Beverages.’; and

4 (2) by adding at the end the following:

5 “(f) ADDITIONAL CONSUMER AND COMMERCIAL
6 PRODUCTS.—(1) Not later than 2 years after the date of
7 enactment of this subsection, the Secretary shall prescribe
8 testing requirements for refrigerated bottled or canned
9 beverage vending machines.

10 “(2) To the maximum extent practicable, the testing
11 requirements prescribed under paragraph (1) shall be
12 based on existing test procedures used in industry.”.

13 (c) STANDARD SETTING AUTHORITY.—Section 325
14 of the Energy Policy and Conservation Act (42 U.S.C.
15 6295) is amended—

16 (1) in subsection (f)(3), by adding at the end
17 the following:

18 “(D) Notwithstanding any other provision of this Act,
19 if the requirements of subsection (o) are met, the Sec-
20 retary may consider and prescribe energy conservation
21 standards or energy use standards for electricity used for
22 purposes of circulating air through duct work.”;

23 (2) in subsection (g)—

24 (A) in paragraph (6)(B), by inserting “and
25 labeled” after “designed”; and

1 (B) by adding at the end the following:

2 “(8)(A) Each fluorescent lamp ballast (other than re-
3 placement ballasts or ballasts described in subparagraph
4 (C))—

5 “(i)(I) manufactured on or after July 1, 2009;

6 “(II) sold by the manufacturer on or after Oc-
7 tober 1, 2009; or

8 “(III) incorporated into a luminaire by a lumi-
9 naire manufacturer on or after July 1, 2010; and

10 “(ii) designed—

11 “(I) to operate at nominal input voltages
12 of 120 or 277 volts;

13 “(II) to operate with an input current fre-
14 quency of 60 Hertz; and

15 “(III) for use in connection with F34T12
16 lamps, F96T12/ES lamps, or F96T12HO/ES
17 lamps;

18 shall have a power factor of 0.90 or greater and
19 shall have a ballast efficacy factor of not less than
20 the following:

21 “(B)

Application for operation of	Ballast input voltage	Total nominal lamp watts	Ballast efficacy factor
One F34T12 lamp	120/277	34	2.61
Two F34T12 lamps	120/277	68	1.35
Two F96 T12/ES lamps	120/277	120	0.77
Two F96 T12HO/ES lamps	120/277	190	0.42.

1 “(C) The standards described in subparagraph (A)
2 shall apply to all ballasts covered by subparagraph (A)(ii)
3 that are manufactured on or after July 1, 2010, or sold
4 by the manufacturer on or after October 1, 2010.

5 “(D) The standards described in subparagraphs (A)
6 and (B) do not apply to—

7 “(i) a ballast that is designed for dimming to
8 50 percent or less of the maximum output of the
9 ballast;

10 “(ii) a ballast that is designed for use with 2
11 F96T12HO lamps at ambient temperatures of 20°F
12 or less and for use in an outdoor sign; or

13 “(iii) a ballast that has a power factor of less
14 than 0.90 and is designed and labeled for use only
15 in residential applications.”;

16 (3) in subsection (o), by adding at the end the
17 following:

18 “(5) The Secretary may set more than 1 energy con-
19 servation standard for products that serve more than 1
20 major function by setting 1 energy conservation standard
21 for each major function.”;

22 (4) in the first sentence of subsection (p), by
23 striking “Any” and inserting the following: “Except
24 as provided in subsection (u), any”; and

25 (5) by adding at the end the following:

1 “(u) BATTERY CHARGER AND EXTERNAL POWER
2 SUPPLY ELECTRIC ENERGY CONSUMPTION.—(1)(A) Not
3 later than 18 months after the date of enactment of this
4 subsection, the Secretary shall, after providing notice and
5 an opportunity for comment, prescribe, by rule, definitions
6 and test procedures for the power use of battery chargers
7 and external power supplies.

8 “(B) In establishing the test procedures under sub-
9 paragraph (A), the Secretary shall—

10 “(i) consider existing definitions and test proce-
11 dures used for measuring energy consumption in
12 standby mode and other modes; and

13 “(ii) assess the current and projected future
14 market for battery chargers and external power sup-
15 plies.

16 “(C) The assessment under subparagraph (B)(ii)
17 shall include—

18 “(i) estimates of the significance of potential
19 energy savings from technical improvements to bat-
20 tery chargers and external power supplies; and

21 “(ii) suggested product classes for energy con-
22 servation standards.

23 “(D) Not later than 18 months after the date of en-
24 actment of this subsection, the Secretary shall hold a
25 scoping workshop to discuss and receive comments on

1 plans for developing energy conservation standards for en-
2 ergy use for battery chargers and external power supplies.

3 “(E)(i) Not later than 3 years after the date of enact-
4 ment of this subsection, the Secretary shall issue a final
5 rule that determines whether energy conservation stand-
6 ards shall be issued for battery chargers and external
7 power supplies or classes of battery chargers and external
8 power supplies.

9 “(ii) For each product class, any energy conservation
10 standards issued under clause (i) shall be set at the lowest
11 level of energy use that—

12 “(I) meets the criteria and procedures of sub-
13 sections (o), (p), (q), (r), (s), and (t); and

14 “(II) would result in significant overall annual
15 energy savings, considering standby mode and other
16 operating modes.

17 “(2) In determining under section 323 whether test
18 procedures and energy conservation standards under this
19 section should be revised with respect to covered products
20 that are major sources of standby mode energy consump-
21 tion, the Secretary shall consider whether to incorporate
22 standby mode into the test procedures and energy con-
23 servation standards, taking into account standby mode
24 power consumption compared to overall product energy
25 consumption.

1 “(3) The Secretary shall not propose an energy con-
2 servation standard under this section, unless the Secretary
3 has issued applicable test procedures for each product
4 under section 323.

5 “(4) Any energy conservation standard issued under
6 this subsection shall be applicable to products manufac-
7 tured or imported beginning on the date that is 3 years
8 after the date of issuance.

9 “(5) The Secretary and the Administrator shall col-
10 laborate and develop programs (including programs under
11 section 324A and other voluntary industry agreements or
12 codes of conduct) that are designed to reduce standby
13 mode energy use.

14 “(v) CEILING FANS AND REFRIGERATED BEVERAGE
15 VENDING MACHINES.—(1) Not later than 1 year after the
16 date of enactment of this subsection, the Secretary shall
17 prescribe, by rule, energy conservation standards for ceil-
18 ing fans and ceiling fan light kits. If the Secretary sets
19 such standards, the Secretary shall consider exempting or
20 setting different standards for certain product classes for
21 which the primary standards are not technically feasible
22 or economically justified, and establishing separate or ex-
23 empted product classes for highly decorative fans for
24 which air movement performance is a secondary design
25 feature.

1 “(2) Not later than 4 years after the date of enact-
2 ment of this subsection, the Secretary shall prescribe, by
3 rule, energy conservation standards for refrigerated bottle
4 or canned beverage vending machines.

5 “(3) In establishing energy conservation standards
6 under this subsection, the Secretary shall use the criteria
7 and procedures prescribed under subsections (o) and (p).

8 “(4) Any energy conservation standard prescribed
9 under this subsection shall apply to products manufac-
10 tured 3 years after the date of publication of a final rule
11 establishing the energy conservation standard.

12 “(w) ILLUMINATED EXIT SIGNS.—An illuminated
13 exit sign manufactured on or after January 1, 2006, shall
14 meet the version 2.0 Energy Star Program performance
15 requirements for illuminated exit signs prescribed by the
16 Environmental Protection Agency.

17 “(x) TORCHIERES.—A torchiere manufactured on or
18 after January 1, 2006—

19 “(1) shall consume not more than 190 watts of
20 power; and

21 “(2) shall not be capable of operating with
22 lamps that total more than 190 watts.

23 “(y) LOW VOLTAGE DRY-TYPE DISTRIBUTION
24 TRANSFORMERS.—The efficiency of a low voltage dry-type
25 distribution transformer manufactured on or after Janu-

ary 1, 2007, shall be the Class I Efficiency Levels for distribution transformers specified in table 4–2 of the ‘Guide for Determining Energy Efficiency for Distribution Transformers’ published by the National Electrical Manufacturers Association (NEMA TP–1–2002).

“(z) **TRAFFIC SIGNAL MODULES AND PEDESTRIAN MODULES.**—Any traffic signal module or pedestrian module manufactured on or after January 1, 2006, shall—

“(1) meet the performance requirements used under the Energy Star program of the Environmental Protection Agency for traffic signals, as in effect on the date of enactment of this subsection; and

“(2) be installed with compatible, electrically connected signal control interface devices and conflict monitoring systems.

“(aa) **UNIT HEATERS.**—A unit heater manufactured on or after the date that is 3 years after the date of enactment of this subsection shall—

“(1) be equipped with an intermittent ignition device; and

“(2) have power venting or an automatic flue damper.

“(bb) **MEDIUM BASE COMPACT FLUORESCENT LAMPS.**—(1) A bare lamp and covered lamp (no reflector)

1 medium base compact fluorescent lamp manufactured on
2 or after January 1, 2006, shall meet the following require-
3 ments prescribed by the August 9, 2001, version of the
4 Energy Star Program Requirements for Compact Fluores-
5 cent Lamps, Energy Star Eligibility Criteria, Energy-Effi-
6 ciency Specification issued by the Environmental Protec-
7 tion Agency and Department of Energy:

8 “(A) Minimum initial efficacy.

9 “(B) Lumen maintenance at 1000 hours.

10 “(C) Lumen maintenance at 40 percent of
11 rated life.

12 “(D) Rapid cycle stress test.

13 “(E) Lamp life.

14 “(2) The Secretary may, by rule, establish require-
15 ments for color quality (CRI), power factor, operating fre-
16 quency, and maximum allowable start time based on the
17 requirements prescribed by the August 9, 2001, version
18 of the Energy Star Program Requirements for Compact
19 Fluorescent Lamps.

20 “(3) The Secretary may, by rule—

21 “(A) revise the requirements established under
22 paragraph (2); or

23 “(B) establish other requirements, after consid-
24 ering energy savings, cost effectiveness, and con-
25 sumer satisfaction.

1 “(cc) DEHUMIDIFIERS.—(1) Dehumidifiers manufac-
 2 tured on or after October 1, 2007, shall have an Energy
 3 Factor that meets or exceeds the following values:

“Product Capacity (pints/day):	Minimum Energy Factor (Liters/kWh)
25.00 or less	1.00
25.01–35.00	1.20
35.01–54.00	1.30
54.01–74.99	1.50
75.00 or more	2.25.

4 “(2)(A) Not later than October 1, 2009, the Sec-
 5 retary shall publish a final rule in accordance with sub-
 6 sections (o) and (p), to determine whether the energy con-
 7 servation standards established under paragraph (1)
 8 should be amended.

9 “(B) The final rule published under subparagraph
 10 (A) shall—

11 “(i) contain any amendment by the Secretary;
 12 and

13 “(ii) provide that the amendment applies to
 14 products manufactured on or after October 1, 2012.

15 “(C) If the Secretary does not publish an amendment
 16 that takes effect by October 1, 2012, dehumidifiers manu-
 17 factured on or after October 1, 2012, shall have an Energy
 18 Factor that meets or exceeds the following values:

“Product Capacity (pints/day):	Minimum Energy Factor (Liters/kWh)
25.00 or less	1.20
25.01–35.00	1.30
35.01–45.00	1.40
45.01–54.00	1.50
54.01–74.99	1.60
75.00 or more	2.5.

1 “(dd) COMMERCIAL PRERINSE SPRAY VALVES.—
2 Commercial prerinse spray valves manufactured on or
3 after January 1, 2006, shall have a flow rate of not more
4 than 1.6 gallons per minute.

5 “(ee) MERCURY VAPOR LAMP BALLASTS.—Mercury
6 vapor lamp ballasts shall not be manufactured or imported
7 after January 1, 2008.

8 “(ff) APPLICATION DATE.—Section 327 applies—

9 “(1) to products for which energy conservation
10 standards are to be established under subsection (l),
11 (u), or (v) beginning on the date on which a final
12 rule is issued by the Secretary, except that any State
13 or local standard prescribed or enacted for the prod-
14 uct before the date on which the final rule is issued
15 shall not be preempted until the energy conservation
16 standard established under subsection (l), (u), or (v)
17 for the product takes effect; and

18 “(2) to products for which energy conservation
19 standards are established under subsections (w)
20 through (ee) on the date of enactment of those sub-
21 sections, except that any State or local standard pre-
22 scribed or enacted before the date of enactment of
23 those subsections shall not be preempted until the
24 energy conservation standards established under
25 subsections (w) through (ee) take effect.”.

1 (d) GENERAL RULE OF PREEMPTION.—Section
2 327(c) of the Energy Policy and Conservation Act (42
3 U.S.C. 6297(c)) is amended—

4 (1) in paragraph (5), by striking “or” at the
5 end;

6 (2) in paragraph (6), by striking the period at
7 the end and inserting “; or”; and

8 (3) by adding at the end the following:

9 “(7)(A) is a regulation concerning standards for
10 commercial prerinse spray valves adopted by the
11 California Energy Commission before January 1,
12 2005; or

13 “(B) is an amendment to a regulation described
14 in subparagraph (A) that was developed to align
15 California regulations with changes in American So-
16 ciety for Testing and Materials Standard F2324;

17 “(8)(A) is a regulation concerning standards for
18 pedestrian modules adopted by the California En-
19 ergy Commission before January 1, 2005; or

20 “(B) is an amendment to a regulation described
21 in subparagraph (A) that was developed to align
22 California regulations to changes in the Institute for
23 Transportation Engineers standards, entitled ‘Per-
24 formance Specification: Pedestrian Traffic Control
25 Signal Indications’.”

1 **SEC. 136. ENERGY CONSERVATION STANDARDS FOR COM-**
2 **MERCIAL EQUIPMENT.**

3 (a) DEFINITIONS.—Section 340 of the Energy Policy
4 and Conservation Act (42 U.S.C. 6311) is amended—

5 (1) in paragraph (1)—

6 (A) by redesignating subparagraphs (D)
7 through (G) as subparagraphs (H) through
8 (K), respectively; and

9 (B) by inserting after subparagraph (C)
10 the following:

11 “(D) Very large commercial package air
12 conditioning and heating equipment.

13 “(E) Commercial refrigerators, freezers,
14 and refrigerator-freezers.

15 “(F) Automatic commercial ice makers.

16 “(G) Commercial clothes washers.”;

17 (2) in paragraph (2)(B), by striking “small and
18 large commercial package air conditioning and heat-
19 ing equipment” and inserting “commercial package
20 air conditioning and heating equipment, commercial
21 refrigerators, freezers, and refrigerator-freezers,
22 automatic commercial ice makers, commercial
23 clothes washers”;

24 (3) by striking paragraphs (8) and (9) and in-
25 serting the following:

1 “(8)(A) The term ‘commercial package air con-
2 ditioning and heating equipment’ means air-cooled,
3 water-cooled, evaporatively-cooled, or water source
4 (not including ground water source) electrically oper-
5 ated, unitary central air conditioners and central air
6 conditioning heat pumps for commercial application.

7 “(B) The term ‘small commercial package air
8 conditioning and heating equipment’ means commer-
9 cial package air conditioning and heating equipment
10 that is rated below 135,000 Btu per hour (cooling
11 capacity).

12 “(C) The term ‘large commercial package air
13 conditioning and heating equipment’ means commer-
14 cial package air conditioning and heating equipment
15 that is rated—

16 “(i) at or above 135,000 Btu per hour;
17 and

18 “(ii) below 240,000 Btu per hour (cooling
19 capacity).

20 “(D) The term ‘very large commercial package
21 air conditioning and heating equipment’ means com-
22 mercial package air conditioning and heating equip-
23 ment that is rated—

24 “(i) at or above 240,000 Btu per hour;
25 and

1 “(ii) below 760,000 Btu per hour (cooling
2 capacity).

3 “(9)(A) The term ‘commercial refrigerator,
4 freezer, and refrigerator-freezer’ means refrigeration
5 equipment that—

6 “(i) is not a consumer product (as defined
7 in section 321);

8 “(ii) is not designed and marketed exclu-
9 sively for medical, scientific, or research pur-
10 poses;

11 “(iii) operates at a chilled, frozen, com-
12 bination chilled and frozen, or variable tempera-
13 ture;

14 “(iv) displays or stores merchandise and
15 other perishable materials horizontally,
16 semivertically, or vertically;

17 “(v) has transparent or solid doors, sliding
18 or hinged doors, a combination of hinged, slid-
19 ing, transparent, or solid doors, or no doors;

20 “(vi) is designed for pull-down temperature
21 applications or holding temperature applica-
22 tions; and

23 “(vii) is connected to a self-contained con-
24 densing unit or to a remote condensing unit.

1 “(B) The term ‘holding temperature applica-
2 tion’ means a use of commercial refrigeration equip-
3 ment other than a pull-down temperature applica-
4 tion, except a blast chiller or freezer.

5 “(C) The term ‘integrated average temperature’
6 means the average temperature of all test package
7 measurements taken during the test.

8 “(D) The term ‘pull-down temperature applica-
9 tion’ means a commercial refrigerator with doors
10 that, when fully loaded with 12 ounce beverage cans
11 at 90 degrees F, can cool those beverages to an av-
12 erage stable temperature of 38 degrees F in 12
13 hours or less.

14 “(E) The term ‘remote condensing unit’ means
15 a factory-made assembly of refrigerating components
16 designed to compress and liquefy a specific refriger-
17 erant that is remotely located from the refrigerated
18 equipment and consists of 1 or more refrigerant
19 compressors, refrigerant condensers, condenser fans
20 and motors, and factory supplied accessories.

21 “(F) The term ‘self-contained condensing unit’
22 means a factory-made assembly of refrigerating com-
23 ponents designed to compress and liquefy a specific
24 refrigerant that is an integral part of the refriger-
25 erated equipment and consists of 1 or more refriger-

1 erant compressors, refrigerant condensers, condenser
2 fans and motors, and factory supplied accessories.”;
3 and

4 (4) by adding at the end the following:

5 “(19) The term ‘automatic commercial ice
6 maker’ means a factory-made assembly (not nec-
7 essarily shipped in 1 package) that—

8 “(A) consists of a condensing unit and ice-
9 making section operating as an integrated unit,
10 with means for making and harvesting ice; and

11 “(B) may include means for storing ice,
12 dispensing ice, or storing and dispensing ice.

13 “(20) The term ‘commercial clothes washer’
14 means a soft-mount front-loading or soft-mount top-
15 loading clothes washer that—

16 “(A) has a clothes container compartment
17 that—

18 “(i) for horizontal-axis clothes wash-
19 ers, is not more than 3.5 cubic feet ; and

20 “(ii) for vertical-axis clothes washers,
21 is not more than 4.0 cubic feet; and

22 “(B) is designed for use in—

23 “(i) applications in which the occu-
24 pants of more than 1 household will be
25 using the clothes washer, such as multi-

1 family housing common areas and coin
2 laundries; or

3 “(ii) other commercial applications.

4 “(21) The term ‘harvest rate’ means the
5 amount of ice (at 32 degrees F) in pounds produced
6 per 24 hours.”.

7 (b) STANDARDS FOR COMMERCIAL PACKAGE AIR
8 CONDITIONING AND HEATING EQUIPMENT.—Section
9 342(a) of the Energy Policy and Conservation Act (42
10 U.S.C. 6313(a)) is amended—

11 (1) in the subsection heading, by striking
12 “SMALL AND LARGE” and inserting “SMALL,
13 LARGE, AND VERY LARGE”;

14 (2) in paragraph (1), by inserting “but before
15 January 1, 2010,” after “January 1, 1994,”;

16 (3) in paragraph (2), by inserting “but before
17 January 1, 2010,” after “January 1, 1995,”; and

18 (4) in paragraph (6)—

19 (A) in subparagraph (A)—

20 (i) by inserting “(i)” after “(A)”;

21 (ii) by striking “the date of enactment
22 of the Energy Policy Act of 1992” and in-
23 serting “January 1, 2010”;

24 (iii) by inserting after “large commer-
25 cial package air conditioning and heating

1 equipment,” the following: “and very large
2 commercial package air conditioning and
3 heating equipment, or if ASHRAE/IES
4 Standard 90.1, as in effect on October 24,
5 1992, is amended with respect to any”;
6 and

7 (iv) by adding at the end the fol-
8 lowing:

9 “(ii) If ASHRAE/IES Standard 90.1 is not amended
10 with respect to small commercial package air conditioning
11 and heating equipment, large commercial package air con-
12 ditioning and heating equipment, and very large commer-
13 cial package air conditioning and heating equipment dur-
14 ing the 5-year period beginning on the effective date of
15 a standard, the Secretary may initiate a rulemaking to
16 determine whether a more stringent standard—

17 “(I) would result in significant additional con-
18 servation of energy; and

19 “(II) is technologically feasible and economi-
20 cally justified.”; and

21 (B) in subparagraph (C)(ii), by inserting
22 “and very large commercial package air condi-
23 tioning and heating equipment” after “large
24 commercial package air conditioning and heat-
25 ing equipment”; and

1 (5) by adding at the end the following:

2 “(7) Small commercial package air conditioning and
3 heating equipment manufactured on or after January 1,
4 2010, shall meet the following standards:

5 “(A) The minimum energy efficiency ratio of
6 air-cooled central air conditioners at or above 65,000
7 Btu per hour (cooling capacity) and less than
8 135,000 Btu per hour (cooling capacity) shall be—

9 “(i) 11.2 for equipment with no heating or
10 electric resistance heating; and

11 “(ii) 11.0 for equipment with all other
12 heating system types that are integrated into
13 the equipment (at a standard rating of 95 de-
14 grees F db).

15 “(B) The minimum energy efficiency ratio of
16 air-cooled central air conditioner heat pumps at or
17 above 65,000 Btu per hour (cooling capacity) and
18 less than 135,000 Btu per hour (cooling capacity)
19 shall be—

20 “(i) 11.0 for equipment with no heating or
21 electric resistance heating; and

22 “(ii) 10.8 for equipment with all other
23 heating system types that are integrated into
24 the equipment (at a standard rating of 95 de-
25 grees F db).

1 “(C) The minimum coefficient of performance
2 in the heating mode of air-cooled central air condi-
3 tioning heat pumps at or above 65,000 Btu per hour
4 (cooling capacity) and less than 135,000 Btu per
5 hour (cooling capacity) shall be 3.3 (at a high tem-
6 perature rating of 47 degrees F db).

7 “(8) Large commercial package air conditioning and
8 heating equipment manufactured on or after January 1,
9 2010, shall meet the following standards:

10 “(A) The minimum energy efficiency ratio of
11 air-cooled central air conditioners at or above
12 135,000 Btu per hour (cooling capacity) and less
13 than 240,000 Btu per hour (cooling capacity) shall
14 be—

15 “(i) 11.0 for equipment with no heating or
16 electric resistance heating; and

17 “(ii) 10.8 for equipment with all other
18 heating system types that are integrated into
19 the equipment (at a standard rating of 95 de-
20 grees F db).

21 “(B) The minimum energy efficiency ratio of
22 air-cooled central air conditioner heat pumps at or
23 above 135,000 Btu per hour (cooling capacity) and
24 less than 240,000 Btu per hour (cooling capacity)
25 shall be—

1 “(i) 10.6 for equipment with no heating or
2 electric resistance heating; and

3 “(ii) 10.4 for equipment with all other
4 heating system types that are integrated into
5 the equipment (at a standard rating of 95 de-
6 grees F db).

7 “(C) The minimum coefficient of performance
8 in the heating mode of air-cooled central air condi-
9 tioning heat pumps at or above 135,000 Btu per
10 hour (cooling capacity) and less than 240,000 Btu
11 per hour (cooling capacity) shall be 3.2 (at a high
12 temperature rating of 47 degrees F db).

13 “(9) Very large commercial package air conditioning
14 and heating equipment manufactured on or after January
15 1, 2010, shall meet the following standards:

16 “(A) The minimum energy efficiency ratio of
17 air-cooled central air conditioners at or above
18 240,000 Btu per hour (cooling capacity) and less
19 than 760,000 Btu per hour (cooling capacity) shall
20 be—

21 “(i) 10.0 for equipment with no heating or
22 electric resistance heating; and

23 “(ii) 9.8 for equipment with all other heat-
24 ing system types that are integrated into the

1 equipment (at a standard rating of 95 degrees
2 F db).

3 “(B) The minimum energy efficiency ratio of
4 air-cooled central air conditioner heat pumps at or
5 above 240,000 Btu per hour (cooling capacity) and
6 less than 760,000 Btu per hour (cooling capacity)
7 shall be—

8 “(i) 9.5 for equipment with no heating or
9 electric resistance heating; and

10 “(ii) 9.3 for equipment with all other heat-
11 ing system types that are integrated into the
12 equipment (at a standard rating of 95 degrees
13 F db).

14 “(C) The minimum coefficient of performance
15 in the heating mode of air-cooled central air condi-
16 tioning heat pumps at or above 240,000 Btu per
17 hour (cooling capacity) and less than 760,000 Btu
18 per hour (cooling capacity) shall be 3.2 (at a high
19 temperature rating of 47 degrees F db).”.

20 (c) STANDARDS FOR COMMERCIAL REFRIGERATORS,
21 FREEZERS, AND REFRIGERATOR-FREEZERS.—Section
22 342 of the Energy Policy and Conservation Act (42 U.S.C.
23 6313) is amended by adding at the end the following:

24 “(c) COMMERCIAL REFRIGERATORS, FREEZERS, AND
25 REFRIGERATOR-FREEZERS.—(1) In this subsection:

1 “(A) The term ‘AV’ means the adjusted volume
 2 (ft³) (defined as 1.63 x frozen temperature compart-
 3 ment volume (ft³) + chilled temperature compart-
 4 ment volume (ft³)) with compartment volumes meas-
 5 ured in accordance with the Association of Home
 6 Appliance Manufacturers Standard HRF1–1979.

7 “(B) The term ‘V’ means the chilled or frozen
 8 compartment volume (ft³) (as defined in the Asso-
 9 ciation of Home Appliance Manufacturers Standard
 10 HRF1–1979).

11 “(C) Other terms have such meanings as may
 12 be established by the Secretary, based on industry-
 13 accepted definitions and practice.

14 “(2) Each commercial refrigerator, freezer, and re-
 15 frigerator-freezer with a self-contained condensing unit de-
 16 signed for holding temperature applications manufactured
 17 on or after January 1, 2010, shall have a daily energy
 18 consumption (in kilowatt hours per day) that does not ex-
 19 ceed the following:

Refrigerators with solid doors	0.10 V + 2.04
Refrigerators with transparent doors	0.12 V + 3.34
Freezers with solid doors	0.40 V + 1.38
Freezers with transparent doors	0.75 V + 4.10
Refrigerators/freezers with solid doors the greater of.	0.27 AV – 0.71 or 0.70.

20 “(3) Each commercial refrigerator with a self-con-
 21 tained condensing unit designed for pull-down tempera-

1 ture applications and transparent doors manufactured on
2 or after January 1, 2010, shall have a daily energy con-
3 sumption (in kilowatt hours per day) of not more than
4 $0.126 V + 3.51$.

5 “(4)(A) Not later than January 1, 2009, the Sec-
6 retary shall issue, by rule, standard levels for ice-cream
7 freezers, self-contained commercial refrigerators, freezers,
8 and refrigerator-freezers without doors, and remote con-
9 densing commercial refrigerators, freezers, and refrig-
10 erator-freezers, with the standard levels effective for
11 equipment manufactured on or after January 1, 2012.

12 “(B) The Secretary may issue, by rule, standard lev-
13 els for other types of commercial refrigerators, freezers,
14 and refrigerator-freezers not covered by paragraph (2)(A)
15 with the standard levels effective for equipment manufac-
16 tured 3 or more years after the date on which the final
17 rule is published.

18 “(5)(A) Not later than January 1, 2013, the Sec-
19 retary shall issue a final rule to determine whether the
20 standards established under this subsection should be
21 amended.

22 “(B) Not later than 3 years after the effective date
23 of any amended standards under subparagraph (A) or the
24 publication of a final rule determining that the standards
25 should not be amended, the Secretary shall issue a final

1 rule to determine whether the standards established under
 2 this subsection or the amended standards, as applicable,
 3 should be amended.

4 “(C) If the Secretary issues a final rule under sub-
 5 paragraph (A) or (B) establishing amended standards, the
 6 final rule shall provide that the amended standards apply
 7 to products manufactured on or after the date that is—

8 “(i) 3 years after the date on which the final
 9 amended standard is published; or

10 “(ii) if the Secretary determines, by rule, that
 11 3 years is inadequate, not later than 5 years after
 12 the date on which the final rule is published.”.

13 (d) STANDARDS FOR AUTOMATIC COMMERCIAL ICE
 14 MAKERS.—Section 342 of the Energy Policy and Con-
 15 servation Act (42 U.S.C. 6313) (as amended by subsection
 16 (c)) is amended by adding at the end the following:

17 “(d) AUTOMATIC COMMERCIAL ICE MAKERS.—(1)
 18 Each automatic commercial ice maker that produces cube
 19 type ice with capacities between 50 and 2500 pounds per
 20 24-hour period when tested according to the test standard
 21 established in section 343(a)(7) and is manufactured on
 22 or after January 1, 2010, shall meet the following stand-
 23 ard levels:

Equipment Type	Type of Cooling	Harvest Rate (lbs ice/24 hours)	Maximum Energy Use (kWh/100 lbs Ice)	Maximum Condenser Water Use (gal/100 lbs Ice)
Ice Making Head	Water	<500	7.80–0.0055H	200–0.022H

Equipment Type	Type of Cooling	Harvest Rate (lbs ice/24 hours)	Maximum Energy Use (kWh/100 lbs Ice)	Maximum Condenser Water Use (gal/100 lbs Ice)
.....		500 and <1436	5.58–0.0011H	200–0.022H
.....		1436	4.0	200–0.022H
Ice Making Head	Air	<450	10.26–0.0086H	Not Applicable
.....		450	6.89–0.0011H	Not Applicable
Remote Condensing (but not remote compressor)	Air	<1000	8.85–0.0038H	Not Applicable
.....		1000	5.10	Not Applicable
Remote Condensing and Remote	Air	<934	8.85–0.0038H	Not Applicable
Compressor		934	5.3	Not Applicable
Self Contained	Water	<200	11.40–0.019H	191–0.0315H
.....		200	7.60	191–0.0315H
Self Contained	Air	<175	18.0–0.0469H	Not Applicable
.....		175	9.80	Not Applicable

H = Harvest rate in pounds per 24 hours.
 Water use is for the condenser only and does not include potable water used to make ice.

1 “(2)(A) The Secretary may issue, by rule, standard
 2 levels for types of automatic commercial ice makers that
 3 are not covered by paragraph (1).

4 “(B) The standards established under subparagraph
 5 (A) shall apply to products manufactured on or after the
 6 date that is—

7 “(i) 3 years after the date on which the rule is
 8 published under subparagraph (A); or

9 “(ii) if the Secretary determines, by rule, that
 10 3 years is inadequate, not later than 5 years after
 11 the date on which the final rule is published.

1 “(3)(A) Not later than January 1, 2015, with respect
2 to the standards established under paragraph (1), and,
3 with respect to the standards established under paragraph
4 (2), not later than 5 years after the date on which the
5 standards take effect, the Secretary shall issue a final rule
6 to determine whether amending the applicable standards
7 is technologically feasible and economically justified.

8 “(B) Not later than 5 years after the effective date
9 of any amended standards under subparagraph (A) or the
10 publication of a final rule determining that amending the
11 standards is not technologically feasible or economically
12 justified, the Secretary shall issue a final rule to determine
13 whether amending the standards established under para-
14 graph (1) or the amended standards, as applicable, is tech-
15 nologically feasible or economically justified.

16 “(C) If the Secretary issues a final rule under sub-
17 paragraph (A) or (B) establishing amended standards, the
18 final rule shall provide that the amended standards apply
19 to products manufactured on or after the date that is—

20 “(i) 3 years after the date on which the final
21 amended standard is published; or

22 “(ii) if the Secretary determines, by rule, that
23 3 years is inadequate, not later than 5 years after
24 the date on which the final amended standard is
25 published.

1 “(4) A final rule issued under paragraph (2) or (3)
2 shall establish standards at the maximum level that is
3 technically feasible and economically justified, as provided
4 in subsections (o) and (p) of section 325.”.

5 (e) STANDARDS FOR COMMERCIAL CLOTHES WASH-
6 ERS.—Section 342 of the Energy Policy and Conservation
7 Act (42 U.S.C. 6313) (as amended by subsection (d)) is
8 amended by adding at the end the following:

9 “(e) COMMERCIAL CLOTHES WASHERS.—(1) Each
10 commercial clothes washer manufactured on or after Jan-
11 uary 1, 2007, shall have—

12 “(A) a Modified Energy Factor of at least 1.26;

13 and

14 “(B) a Water Factor of not more than 9.5.

15 “(2)(A)(i) Not later than January 1, 2010, the Sec-
16 retary shall publish a final rule to determine whether the
17 standards established under paragraph (1) should be
18 amended.

19 “(ii) The rule published under clause (i) shall provide
20 that any amended standard shall apply to products manu-
21 factured 3 years after the date on which the final amended
22 standard is published.

23 “(B)(i) Not later than January 1, 2015, the Sec-
24 retary shall publish a final rule to determine whether the

1 standards established under paragraph (1) should be
2 amended.

3 “(ii) The rule published under clause (i) shall provide
4 that any amended standard shall apply to products manu-
5 factured 3 years after the date on which the final amended
6 standard is published.”.

7 (f) **TEST PROCEDURES.**—Section 343 of the Energy
8 Policy and Conservation Act (42 U.S.C. 6314) is amend-
9 ed—

10 (1) in subsection (a)—

11 (A) in paragraph (4)—

12 (i) in subparagraph (A), by inserting
13 “very large commercial package air condi-
14 tioning and heating equipment,” after
15 “large commercial package air conditioning
16 and heating equipment,”; and

17 (ii) in subparagraph (B), by inserting
18 “very large commercial package air condi-
19 tioning and heating equipment,” after
20 “large commercial package air conditioning
21 and heating equipment,”; and

22 (B) by adding at the end the following:

23 “(6)(A)(i) In the case of commercial refrigerators,
24 freezers, and refrigerator-freezers, the test procedures
25 shall be—

1 “(I) the test procedures determined by the Sec-
2 retary to be generally accepted industry testing pro-
3 cedures; or

4 “(II) rating procedures developed or recognized
5 by the ASHRAE or by the American National
6 Standards Institute.

7 “(ii) In the case of self-contained refrigerators, freez-
8 ers, and refrigerator-freezers to which standards are appli-
9 cable under paragraphs (2) and (3) of section 342(c), the
10 initial test procedures shall be the ASHRAE 117 test pro-
11 cedure that is in effect on January 1, 2005.

12 “(B)(i) In the case of commercial refrigerators, freez-
13 ers, and refrigerators-freezers with doors covered by the
14 standards adopted in February 2002, by the California
15 Energy Commission, the rating temperatures shall be the
16 integrated average temperature of 38 degrees F (\pm 2 de-
17 grees F) for refrigerator compartments and 0 degrees F
18 (\pm 2 degrees F) for freezer compartments.

19 “(C) The Secretary shall issue a rule in accordance
20 with paragraphs (2) and (3) to establish the appropriate
21 rating temperatures for the other products for which
22 standards will be established under subsection 342(c)(4).

23 “(D) In establishing the appropriate test tempera-
24 tures under this subparagraph, the Secretary shall follow

1 the procedures and meet the requirements under section
2 323(e).

3 “(E)(i) Not later than 180 days after the publication
4 of the new ASHRAE 117 test procedure, if the ASHRAE
5 117 test procedure for commercial refrigerators, freezers,
6 and refrigerator-freezers is amended, the Secretary shall,
7 by rule, amend the test procedure for the product as nec-
8 essary to ensure that the test procedure is consistent with
9 the amended ASHRAE 117 test procedure, unless the
10 Secretary makes a determination, by rule, and supported
11 by clear and convincing evidence, that to do so would not
12 meet the requirements for test procedures under para-
13 graphs (2) and (3).

14 “(ii) If the Secretary determines that 180 days is an
15 insufficient period during which to review and adopt the
16 amended test procedure or rating procedure under clause
17 (i), the Secretary shall publish a notice in the Federal
18 Register stating the intent of the Secretary to wait not
19 longer than 1 additional year before putting into effect
20 an amended test procedure or rating procedure.

21 “(F)(i) If a test procedure other than the ASHRAE
22 117 test procedure is approved by the American National
23 Standards Institute, the Secretary shall, by rule—

1 “(I) review the relative strengths and weak-
2 nesses of the new test procedure relative to the
3 ASHRAE 117 test procedure; and

4 “(II) based on that review, adopt 1 new test
5 procedure for use in the standards program.

6 “(ii) If a new test procedure is adopted under clause
7 (i)—

8 “(I) section 323(e) shall apply; and

9 “(II) subparagraph (B) shall apply to the
10 adopted test procedure.

11 “(7)(A) In the case of automatic commercial ice mak-
12 ers, the test procedures shall be the test procedures speci-
13 fied in Air-Conditioning and Refrigeration Institute
14 Standard 810–2003, as in effect on January 1, 2005.

15 “(B)(i) If Air-Conditioning and Refrigeration Insti-
16 tute Standard 810–2003 is amended, the Secretary shall
17 amend the test procedures established in subparagraph
18 (A) as necessary to be consistent with the amended Air-
19 Conditioning and Refrigeration Institute Standard, unless
20 the Secretary determines, by rule, published in the Federal
21 Register and supported by clear and convincing evidence,
22 that to do so would not meet the requirements for test
23 procedures under paragraphs (2) and (3).

24 “(ii) If the Secretary issues a rule under clause (i)
25 containing a determination described in clause (ii), the

1 rule may establish an amended test procedure for the
2 product that meets the requirements of paragraphs (2)
3 and (3).

4 “(C) The Secretary shall comply with section 323(e)
5 in establishing any amended test procedure under this
6 paragraph.

7 “(8) With respect to commercial clothes washers, the
8 test procedures shall be the same as the test procedures
9 established by the Secretary for residential clothes wash-
10 ers under section 325(g).”; and

11 (2) in subsection (d)(1), by inserting “very
12 large commercial package air conditioning and heat-
13 ing equipment, commercial refrigerators, freezers,
14 and refrigerator-freezers, automatic commercial ice
15 makers, commercial clothes washers,” after “large
16 commercial package air conditioning and heating
17 equipment,”.

18 (g) LABELING.—Section 344(e) of the Energy Policy
19 and Conservation Act (42 U.S.C. 6315(e)) is amended by
20 inserting “very large commercial package air conditioning
21 and heating equipment, commercial refrigerators, freezers,
22 and refrigerator-freezers, automatic commercial ice mak-
23 ers, commercial clothes washers,” after “large commercial
24 package air conditioning and heating equipment,” each
25 place it appears.

1 (h) ADMINISTRATION, PENALTIES, ENFORCEMENT,
2 AND PREEMPTION.—Section 345 of the Energy Policy and
3 Conservation Act (42 U.S.C. 6316) is amended—

4 (1) in subsection (a)—

5 (A) in paragraph (7), by striking “and” at
6 the end;

7 (B) in paragraph (8), by striking the pe-
8 riod at the end and inserting “; and”; and

9 (C) by adding at the end the following:

10 “(9) in the case of commercial clothes washers,
11 section 327(b)(1) shall be applied as if the National
12 Appliance Energy Conservation Act of 1987 was the
13 Energy Policy Act of 2005.”;

14 (2) in the first sentence of subsection (b)(1), by
15 striking “part B” and inserting “part A”; and

16 (3) by adding at the end the following:

17 “(d)(1) Except as provided in paragraphs (2) and
18 (3), section 327 shall apply with respect to very large com-
19 mercial package air conditioning and heating equipment
20 to the same extent and in the same manner as section
21 327 applies under part A on the date of enactment of this
22 subsection.

23 “(2) Any State or local standard issued before the
24 date of enactment of this subsection shall not be pre-

1 emptied until the standards established under section
2 342(a)(9) take effect on January 1, 2010.

3 “(e)(1)(A) Subsections (a), (b), and (d) of section
4 326, subsections (m) through (s) of section 325, and sec-
5 tions 328 through 336 shall apply with respect to commer-
6 cial refrigerators, freezers, and refrigerator-freezers to the
7 same extent and in the same manner as those provisions
8 apply under part A.

9 “(B) In applying those provisions to commercial re-
10 frigerators, freezers, and refrigerator-freezers, paragraphs
11 (1), (2), (3), and (4) of subsection (a) shall apply.

12 “(2)(A) Section 327 shall apply to commercial refrig-
13 erators, freezers, and refrigerator-freezers for which
14 standards are established under paragraphs (2) and (3)
15 of section 342(c) to the same extent and in the same man-
16 ner as those provisions apply under part A on the date
17 of enactment of this subsection, except that any State or
18 local standard issued before the date of enactment of this
19 subsection shall not be preempted until the standards es-
20 tablished under paragraphs (2) and (3) of section 342(c)
21 take effect.

22 “(B) In applying section 327 in accordance with sub-
23 paragraph (A), paragraphs (1), (2), and (3) of subsection
24 (a) shall apply.

1 “(3)(A) Section 327 shall apply to commercial refrig-
2 erators, freezers, and refrigerator-freezers for which
3 standards are established under section 342(c)(4) to the
4 same extent and in the same manner as the provisions
5 apply under part A on the date of publication of the final
6 rule by the Secretary, except that any State or local stand-
7 ard issued before the date of publication of the final rule
8 by the Secretary shall not be preempted until the stand-
9 ards take effect.

10 “(B) In applying section 327 in accordance with sub-
11 paragraph (A), paragraphs (1), (2), and (3) of subsection
12 (a) shall apply.

13 “(4)(A) If the Secretary does not issue a final rule
14 for a specific type of commercial refrigerator, freezer, or
15 refrigerator-freezer within the time frame specified in sec-
16 tion 342(c)(5), subsections (b) and (c) of section 327 shall
17 not apply to that specific type of refrigerator, freezer, or
18 refrigerator-freezer for the period beginning on the date
19 that is 2 years after the scheduled date for a final rule
20 and ending on the date on which the Secretary publishes
21 a final rule covering the specific type of refrigerator, freez-
22 er, or refrigerator-freezer.

23 “(B) Any State or local standard issued before the
24 date of publication of the final rule shall not be preempted
25 until the final rule takes effect.

1 “(5)(A) In the case of any commercial refrigerator,
2 freezer, or refrigerator-freezer to which standards are ap-
3 plicable under paragraphs (2) and (3) of section 342(e),
4 the Secretary shall require manufacturers to certify,
5 through an independent, nationally recognized testing or
6 certification program, that the commercial refrigerator,
7 freezer, or refrigerator-freezer meets the applicable stand-
8 ard.

9 “(B) The Secretary shall, to the maximum extent
10 practicable, encourage the establishment of at least 2 inde-
11 pendent testing and certification programs.

12 “(C) As part of certification, information on equip-
13 ment energy use and interior volume shall be made avail-
14 able to the Secretary.

15 “(f)(1)(A)(i) Except as provided in clause (ii), section
16 327 shall apply to automatic commercial ice makers for
17 which standards have been established under section
18 342(d)(1) to the same extent and in the same manner as
19 the section applies under part A on the date of enactment
20 of this subsection.

21 “(ii) Any State standard issued before the date of en-
22 actment of this subsection shall not be preempted until
23 the standards established under section 342(d)(1) take ef-
24 fect.

1 “(B) In applying section 327 to the equipment under
2 subparagraph (A), paragraphs (1), (2), and (3) of sub-
3 section (a) shall apply.

4 “(2)(A)(i) Except as provided in clause (ii), section
5 327 shall apply to automatic commercial ice makers for
6 which standards have been established under section
7 342(d)(2) to the same extent and in the same manner as
8 the section applies under part A on the date of publication
9 of the final rule by the Secretary.

10 “(ii) Any State standard issued before the date of
11 publication of the final rule by the Secretary shall not be
12 preempted until the standards established under section
13 342(d)(2) take effect.

14 “(B) In applying section 327 in accordance with sub-
15 paragraph (A), paragraphs (1), (2), and (3) of subsection
16 (a) shall apply.

17 “(3)(A) If the Secretary does not issue a final rule
18 for a specific type of automatic commercial ice maker
19 within the time frame specified in subsection 342(d), sub-
20 sections (b) and (c) of section 327 shall no longer apply
21 to the specific type of automatic commercial ice maker for
22 the period beginning on the day after the scheduled date
23 for a final rule and ending on the date on which the Sec-
24 retary publishes a final rule covering the specific type of
25 automatic commercial ice maker.

1 “(B) Any State standard issued before the publica-
2 tion of the final rule shall not be preempted until the
3 standards established in the final rule take effect.

4 “(4)(A) The Secretary shall monitor whether manu-
5 facturers are reducing harvest rates below tested values
6 for the purpose of bringing non-complying equipment into
7 compliance.

8 “(B) If the Secretary finds that there has been a sub-
9 stantial amount of manipulation with respect to harvest
10 rates under subparagraph (A), the Secretary shall take
11 steps to minimize the manipulation, such as requiring har-
12 vest rates to be within 5 percent of tested values.

13 “(g)(1)(A) If the Secretary does not issue a final rule
14 for commercial clothes washers within the timeframe spec-
15 ified in section 342(e)(2), subsections (b) and (c) of sec-
16 tion 327 shall not apply to commercial clothes washers for
17 the period beginning on the day after the scheduled date
18 for a final rule and ending on the date on which the Sec-
19 retary publishes a final rule covering commercial clothes
20 washers.

21 “(B) Any State or local standard issued before the
22 date on which the Secretary publishes a final rule shall
23 not be preempted until the standards established under
24 section 342(e)(2) take effect.

1 “(2) The Secretary shall undertake an educational
2 program to inform owners of laundromats, multifamily
3 housing, and other sites where commercial clothes washers
4 are located about the new standard, including impacts on
5 washer purchase costs and options for recovering those
6 costs through coin collection.”.

7 **SEC. 137. ENERGY LABELING.**

8 (a) RULEMAKING ON EFFECTIVENESS OF CONSUMER
9 PRODUCT LABELING.—Section 324(a)(2) of the Energy
10 Policy and Conservation Act (42 U.S.C. 6294(a)(2)) is
11 amended by adding at the end the following:

12 “(F)(i) Not later than 90 days after the date of en-
13 actment of this subparagraph, the Commission shall ini-
14 tiate a rulemaking to consider—

15 “(I) the effectiveness of the consumer products
16 labeling program in assisting consumers in making
17 purchasing decisions and improving energy effi-
18 ciency; and

19 “(II) changes to the labeling rules (including
20 categorical labeling) that would improve the effec-
21 tiveness of consumer product labels.

22 “(ii) Not later than 2 years after the date of enact-
23 ment of this subparagraph, the Commission shall complete
24 the rulemaking initiated under clause (i).”.

1 (b) RULEMAKING ON LABELING FOR ADDITIONAL
2 PRODUCTS.—Section 324(a) of the Energy Policy and
3 Conservation Act (42 U.S.C. 6294(a)) is amended by add-
4 ing at the end the following:

5 “(5)(A) For covered products described in sub-
6 sections (u) through (ee) of section 325, after a test proce-
7 dure has been prescribed under section 323, the Secretary
8 or the Commission, as appropriate, may prescribe, by rule,
9 under this section labeling requirements for the products.

10 “(B) In the case of products to which TP–1 stand-
11 ards under section 325(y) apply, labeling requirements
12 shall be based on the ‘Standard for the Labeling of Dis-
13 tribution Transformer Efficiency’ prescribed by the Na-
14 tional Electrical Manufacturers Association (NEMA TP–
15 3) as in effect on the date of enactment of this paragraph.

16 “(C) In the case of dehumidifiers covered under sec-
17 tion 325(dd), the Commission shall not require an ‘Energy
18 Guide’ label.”.

19 **SEC. 138. INTERMITTENT ESCALATORS.**

20 Section 543 of the National Energy Conservation
21 Policy Act (42 U.S.C. 8253) is amended by adding at the
22 end the following new subsection:

23 “(e) INTERMITTENT ESCALATORS.—

24 “(1) REQUIREMENT.—Except as provided in
25 paragraph (2), any escalator acquired for installa-

1 tion in a Federal building shall be an intermittent
2 escalator.

3 “(2) EXCEPTION.—Paragraph (1) shall not
4 apply at a location outside the United States where
5 the Federal agency determines that to acquire an
6 intermittent escalator would require substantially
7 greater cost to the Government over the life of the
8 escalator.

9 “(3) ADDITIONAL ENERGY CONSERVATION
10 MEASURES.—In addition to complying with para-
11 graph (1), Federal agencies shall incorporate other
12 escalator energy conservation measures, as appro-
13 priate.

14 “(4) DEFINITION.—For purposes of this sub-
15 section, the term ‘intermittent escalator’ means an
16 escalator that remains in a stationary position until
17 it automatically operates at the approach of a pas-
18 senger, returning to a stationary position after the
19 passenger completes passage.”.

20 **SEC. 139. ENERGY EFFICIENT ELECTRIC AND NATURAL GAS**
21 **UTILITIES STUDY.**

22 (a) IN GENERAL.—Not later than 1 year after the
23 date of enactment of this Act, the Secretary, in consulta-
24 tion with the National Association of Regulatory Utility
25 Commissioners and the National Association of State En-

1 ergy Officials, shall conduct a study of State and regional
2 policies that promote cost-effective programs to reduce en-
3 ergy consumption (including energy efficiency programs)
4 that are carried out by—

5 (1) utilities that are subject to State regulation;

6 and

7 (2) nonregulated utilities.

8 (b) CONSIDERATION.—In conducting the study under
9 subsection (a), the Secretary shall take into consider-
10 ation—

11 (1) performance standards for achieving energy
12 use and demand reduction targets;

13 (2) funding sources, including rate surcharges;

14 (3) infrastructure planning approaches (includ-
15 ing energy efficiency programs) and infrastructure
16 improvements;

17 (4) the costs and benefits of consumer edu-
18 cation programs conducted by State and local gov-
19 ernments and local utilities to increase consumer
20 awareness of energy efficiency technologies and
21 measures; and

22 (5) methods of—

23 (A) removing disincentives for utilities to
24 implement energy efficiency programs;

1 (B) encouraging utilities to undertake vol-
2 untary energy efficiency programs; and

3 (C) ensuring appropriate returns on energy
4 efficiency programs.

5 (c) REPORT.—Not later than 1 year after the date
6 of enactment of this Act, the Secretary shall submit to
7 Congress a report that includes—

8 (1) the findings of the study; and

9 (2) any recommendations of the Secretary, in-
10 cluding recommendations on model policies to pro-
11 mote energy efficiency programs.

12 **SEC. 140. ENERGY EFFICIENCY PILOT PROGRAM.**

13 (a) IN GENERAL.—The Secretary shall establish a
14 pilot program under which the Secretary provides financial
15 assistance to at least 3, but not more than 7, States to
16 carry out pilot projects in the States for—

17 (1) planning and adopting statewide programs
18 that encourage, for each year in which the pilot
19 project is carried out—

20 (A) energy efficiency; and

21 (B) reduction of consumption of electricity
22 or natural gas in the State by at least 0.75 per-
23 cent, as compared to a baseline determined by
24 the Secretary for the period preceding the im-
25 plementation of the program; or

1 “(B) The term ‘replacement tire’ means a tire
2 offered for sale designed to replace a tire sold with
3 a new passenger car or light-duty truck.

4 “(2) The Secretary shall develop and carry out a na-
5 tional replacement tire fuel efficiency education program
6 for replacement tires designed for use on passenger cars
7 and light trucks.

8 “(3) The program shall include the following:

9 “(A) Policies and procedures to enable con-
10 sumers to make informed purchasing decisions about
11 the fuel economy of replacement tires.

12 “(B) Policies and procedures to promote the
13 purchase of energy-efficient replacement tires, in-
14 cluding purchase incentives, website listings on the
15 Internet, printed fuel economy guide booklets, and
16 requirements for tire retailers to provide consumers
17 with fuel-efficiency information about tires.

18 “(C) Policies and procedures to educate con-
19 sumers about proper tire maintenance, inflation,
20 wear, storage, and frequency of replacement, to
21 maximize fuel economy.

22 “(4) The Secretary may collect from tire manufactur-
23 ers and make available to the public pertinent technical
24 information regarding the fuel economy, manufacture,

1 composition, performance, safety, durability and cost of
2 replacement tires sold in the United States.

3 “(5) The Secretary shall implement the requirements
4 of this subsection not later than 1 year after the date of
5 enactment of this subsection.”.

6 (b) RECOMMENDATIONS FOR CONGRESSIONAL AC-
7 TION.—

8 (1) IN GENERAL.—Not later than 180 days
9 after the date of enactment of this Act, the Sec-
10 retary of Transportation shall conduct a review of
11 the feasibility of regulating the fuel economy of re-
12 placement tires.

13 (2) NATIONAL TIRE EFFICIENCY REPORT.—In
14 carrying out this subsection, the Secretary shall con-
15 sider the report of the National Academy of Sciences
16 on national tire efficiency required under the head-
17 ing “RESEARCH AND ANALYSIS” under the
18 heading “NATIONAL HIGHWAY TRAFFIC
19 SAFETY ADMINISTRATION” of division F of the
20 Consolidated Appropriations Act, 2004 (Public Law
21 108–199; 118 Stat. 298).

22 (3) REPORT.—Not later than 180 days after
23 completing the review, the Secretary shall submit to
24 Congress a report on the results of the review, in-

1 including the legislative recommendations of the Sec-
2 retary.

3 **Subtitle D—Public Housing**

4 **SEC. 151. PUBLIC HOUSING CAPITAL FUND.**

5 Section 9 of the United States Housing Act of 1937
6 (42 U.S.C. 1437g) is amended—

7 (1) in subsection (d)(1)—

8 (A) in subparagraph (I), by striking “and”
9 at the end;

10 (B) in subparagraph (J), by striking the
11 period at the end and inserting a semicolon;
12 and

13 (C) by adding at the end the following new
14 subparagraphs:

15 “(K) improvement of energy and water-use
16 efficiency by installing fixtures and fittings that
17 conform to the American Society of Mechanical
18 Engineers/American National Standards Insti-
19 tute standards A112.19.2–1998 and
20 A112.18.1–2000, or any revision thereto, appli-
21 cable at the time of installation, and by increas-
22 ing energy efficiency and water conservation by
23 such other means as the Secretary determines
24 are appropriate; and

1 “(L) integrated utility management and
2 capital planning to maximize energy conserva-
3 tion and efficiency measures.”; and

4 (2) in subsection (e)(2)(C)—

5 (A) by striking “The” and inserting the
6 following:

7 “(i) IN GENERAL.—The”; and

8 (B) by adding at the end the following:

9 “(ii) THIRD PARTY CONTRACTS.—
10 Contracts described in clause (i) may in-
11 clude contracts for equipment conversions
12 to less costly utility sources, projects with
13 resident-paid utilities, and adjustments to
14 frozen base year consumption, including
15 systems repaired to meet applicable build-
16 ing and safety codes and adjustments for
17 occupancy rates increased by rehabilita-
18 tion.

19 “(iii) TERM OF CONTRACT.—The total
20 term of a contract described in clause (i)
21 shall not exceed 20 years to allow longer
22 payback periods for retrofits, including
23 windows, heating system replacements,
24 wall insulation, site-based generation, ad-
25 vanced energy savings technologies, includ-

1 ing renewable energy generation, and other
2 such retrofits.”.

3 **SEC. 152. ENERGY-EFFICIENT APPLIANCES.**

4 In purchasing appliances, a public housing agency
5 shall purchase energy-efficient appliances that are Energy
6 Star products or FEMP-designated products, as such
7 terms are defined in section 553 of the National Energy
8 Conservation Policy Act), unless the purchase of energy-
9 efficient appliances is not cost-effective to the agency.

10 **SEC. 153. ENERGY EFFICIENCY STANDARDS.**

11 Section 109 of the Cranston-Gonzalez National Af-
12 fordable Housing Act (42 U.S.C. 12709) is amended—

13 (1) in subsection (a)—

14 (A) in paragraph (1)—

15 (i) by striking “1 year after the date
16 of the enactment of the Energy Policy Act
17 of 1992” and inserting “September 30,
18 2006”;

19 (ii) in subparagraph (A), by striking
20 “and” at the end;

21 (iii) in subparagraph (B), by striking
22 the period at the end and inserting “;
23 and”; and

24 (iv) by adding at the end the fol-
25 lowing:

1 “(C) rehabilitation and new construction of
2 public and assisted housing funded by HOPE
3 VI revitalization grants under section 24 of the
4 United States Housing Act of 1937 (42 U.S.C.
5 1437v), where such standards are determined
6 to be cost effective by the Secretary of Housing
7 and Urban Development.”; and

8 (B) in paragraph (2), by inserting “, and,
9 with respect to rehabilitation and new construc-
10 tion of public and assisted housing funded by
11 HOPE VI revitalization grants under section
12 24 of the United States Housing Act of 1937
13 (42 U.S.C. 1437v), the 2003 International En-
14 ergy Conservation Code” after “90.1–1989”);
15 (2) in subsection (b)—

16 (A) by striking “within 1 year after the
17 date of the enactment of the Energy Policy Act
18 of 1992” and inserting “by September 30,
19 2006”; and

20 (B) by inserting “, and, with respect to re-
21 habilitation and new construction of public and
22 assisted housing funded by HOPE VI revital-
23 ization grants under section 24 of the United
24 States Housing Act of 1937 (42 U.S.C. 1437v),

1 the 2003 International Energy Conservation
2 Code” before the period at the end; and

3 (3) in subsection (c)—

4 (A) in the heading, by inserting “AND THE
5 INTERNATIONAL ENERGY CONSERVATION
6 CODE” after “MODEL ENERGY CODE”; and

7 (B) by inserting “, or, with respect to re-
8 habilitation and new construction of public and
9 assisted housing funded by HOPE VI revital-
10 ization grants under section 24 of the United
11 States Housing Act of 1937 (42 U.S.C. 1437v),
12 the 2003 International Energy Conservation
13 Code” after “1989”.

14 **SEC. 154. ENERGY STRATEGY FOR HUD.**

15 The Secretary of Housing and Urban Development
16 shall develop and implement an integrated strategy to re-
17 duce utility expenses through cost-effective energy con-
18 servation and efficiency measures and energy efficient de-
19 sign and construction of public and assisted housing. The
20 energy strategy shall include the development of energy
21 reduction goals and incentives for public housing agencies.
22 The Secretary shall submit a report to Congress, not later
23 than 1 year after the date of the enactment of this Act,
24 on the energy strategy and the actions taken by the De-
25 partment of Housing and Urban Development to monitor

1 the energy usage of public housing agencies and shall sub-
2 mit an update every 2 years thereafter on progress in im-
3 plementing the strategy.
